 Refund is for Tax Year: 2019

Box 2 - Shows refunds, credits, or offsets of state or local income tax you received. If there is an entry in this box, it may be taxable to you if you deducted the tax paid as an itemized deduction on your Federal income tax return. Even if you did not receive the amount shown, for example, because it was credited to your estimated tax, it is still taxable if it was deducted. Any interest received on this amount must be included as interest income on your return. See the instructions for US Form 1040 or 1040A.

Box 3 - Identifies the tax year for which the refund, credit or offsets shown in box 2 was made. If there is no entry in this box, the refund is for 2019 taxes.
