#### Part III Annualized Income Installment Method Schedule.

Use this schedule ONLY if you earned taxable income at an UNEVEN RATE during 2020 (see Example A). If you earned your income at approximately the same rate each month (see Example B), then you should not complete this schedule. If you choose to figure the penalty, see Worksheet II, Regular Method to Figure Your Underpayment and Penalty, on page 4 of the instructions.

**Example A:** If you were a commissioned salesperson who earned no income during the first three months of the year, earned most of your income during the following six months, and earned very little during the last three months, you should complete this schedule. You may be able to benefit by using the annualized income installment method. The required installment of estimated tax figured using the annualized method may be less than your required installment figured using the required installment method.
