Things you should know

Your NEM billing period is complete

This is the end of your 12-month billing period as a customer-generator under SCE's Net Energy Metering Program OR your bill has been settled due to changes on your account. This statement includes the year-to-date energy charges for your completed 12-month billing period. If the charges are positive, you have been a net consumer of energy and are being billed for your net energy consumed over your 12-month billing period. Your payment is due upon receipt and payable within 19 days.

If your year-to-date energy charges show a credit balance, you have been a net generator over your 12-month billing period and do not owe any energy charges. These credit balances will be forfeited according to the terms of the NEM tariff. If your year-to-date kilowatt hours (kWh) are negative, you may receive net surplus compensation based upon the CPUC-approved value per kilowatt hour (kWh).

Thank you for your participation in SCE's Net Energy Metering Program.

You may notice a change in your billing statement.....

Effective 06/01/2020, the billing rates used to calculate your bill have been modified. For more information, please visit www.sce.com/bill_change.
