General Information

In general, for taxable years beginning on or after January 1, 2015, California law conforms to the Internal Revenue Code (IRC) as of January 1, 2015. However, there are continuing differences between California and federal law. When California conforms to federal tax law changes, we do not always adopt all of the changes made at the federal level. For more information, go to ftb.ca.gov and search for **conformity**. Additional information can be found in FTB Pub. 1001, Supplemental Guidelines to California Adjustments, the instructions for California Schedule CA (540), California Adjustments - Residents, or Schedule CA (540NR), California Adjustments - Nonresidents or Part-Year Residents, and the Business Entity tax booklets.

The instructions provided with California tax forms are a summary of California tax law and are only intended to aid taxpayers in preparing their state income tax returns. We include information that is most useful to the greatest number of taxpayers in the limited space available. It is not possible to include all requirements of the California Revenue and Taxation Code (R&TC) in the instructions. Taxpayers should not consider the instructions as authoritative law.

A Purpose

Use form FTB 3526, Investment Interest Expense Deduction, to figure the amount of investment interest expense deductible for the current year and the amount, if any, to carry forward to future years. Interest expense paid

by an individual, estate, or trust on a loan allocable to property held for investment may not be fully deductible in the current year.

Net capital gain from the disposition of property held for investment is excluded from investment income when figuring the investment interest limitation. However, taxpayers may elect to include in their investment income as much of their net capital gain investment income as they choose, if they also reduce the amount of net capital gain eligible for the special federal capital gain tax rate.

This form allows you to make a separate California election to include net capital gain investment income in the calculation of the investment interest limitation. However, California taxes all income at the same rate. Consider the effect on your California tax before making a separate California election or applying the federal election for California purposes.

B Who Must File

If you are an individual, estate, or trust and you claim a deduction for investment interest expense, you must complete and attach form FTB 3526 to your tax return.

Exception: You do not have to file form FTB 3526 if **all** of the following apply:

- Your only investment income was from interest or dividends.
- You have no other deductible expenses connected with the production of interest or dividends.

- Your investment interest expense is not more than your investment income.
- You have no disallowed investment interest expense from 2019.

Specific Line Instructions

Generally, California law for the investment interest expense deduction follows federal law. Get the instructions for federal Form 4952, Investment Interest Expense Deduction, for more information. Get federal Publication 550, Investment Income and Expenses, to determine your investment interest expense deduction if you have interest income or expense attributable to a working interest in oil or gas property or if you paid or accrued interest on a loan and you used the proceeds of the loan for more than one purpose.

Line 1

Enter the investment interest paid or accrued during the taxable year, regardless of when you incurred the indebtedness. Investment interest expense is interest paid or accrued on a loan (or part of a loan) that is allocable to property held for investment.

Include investment interest expense reported to you on Schedules K-1 (100S, 541, 565, or 568), Share of Income, Deductions, Credits, etc. Include amortization of bond premiums on taxable bonds purchased after October 22, 1986, but before January 1, 1988, unless you elected to offset amortizable bond premiums against the interest payments on the bond. A taxable bond is a bond on which the interest is includable in gross income.
