75.0%	0.0%	0.0%	0.0%	75.0%

The above table shows the total percentage return of your account for the period(s) ending **31 Dec 2020**. Your total percentage return means the cumulative realized and unrealized capital gains and losses of an investment, plus income from the investment, over a specified period of time, expressed as a percentage. Returns are calculated after costs have been deducted, including transaction charges and account-related fees, but not income tax.

Your annual returns have been determined using the money-weighted rate of return calculation methodology as required by securities regulation. Your returns are affected by changes in the value of your investments, dividends and interest that they pay, and deposits and withdrawals in your account. Your returns also reflect the mix of investments and the risk level of your account.
