GENERAL INFORMATION

This report contains a gain or a loss summary of your account. This information is not a solicitation or a recommendation to buy or sell. It may, however, be helpful for investment planning. The Gain/Loss section(s) will not be provided to the IRS or to any other tax authorities. Securities, products, and services are not in all countries and are subject to country-specific restrictions. The information provided may or may not have relevance in other jurisdictions. We recommend that all customers (non-U.S. and U.S.) consult their investment advisors prior to using this information.

Schwab has provided cost basis data wherever possible for most investments, based on information known at the time this report is prepared.

This data may have been provided to Schwab by vendors of market prices and other data, or by other third parties. Although efforts have been made to ensure the quality of the information provided on this report, data may be inaccurate or incomplete and is subject to change. Schwab accepts no responsibility for its accuracy, completeness or timely updating. Taxpayers should verify such information against their own records.

Currency: All figures are in U.S. dollars.

Accounting Methods: The default accounting methods used in this report are compliant with IRS accounting methods for individual investors.

Holding Period Computation: In computing the holding period, the day of acquisition is disregarded but the day of sale is included. For example, in order to obtain long-term capital gains treatment, property purchased on January 1, 2003, could not be sold until January 2, 2004. The trade date (not the settlement date) determines the date of purchase or sale. If no date is available, a blank will be displayed.

Special Accounting Rules: Certain situations including gifts, inheritance, tax-free exchanges, option exercises, short sales, wash sales, straddles, constructive sales, etc., can affect the computation of cost basis and/or holding period. These situations may not be properly factored into the figures shown in this report. Please consult your advisor for more information.

IN CASE OF QUESTIONS: If you have questions about this report or about specific Schwab Accounts or Schwab One transactions (other than wire transfers or check transactions), contact Schwab at 800-435-4000. If you have a complaint regarding your Schwab statement, products or services, please write to the Client Advocacy Team at Charles Schwab & Co., Inc., Attention: Client Advocacy Team, 211 Main St., San Francisco, CA 94105. Outside of the U.S., call +1-415-667-5009.

2021 Year-End Schwab Gain/Loss Report

Realized Gain or (Loss)

Accounting Method
 Mutual Funds: Average
 All Other Investments: First In First Out [FIFO]

Short-Term	Quantity/Par	Acquired/ Opened	Sold/ Closed	Total Proceeds	Cost Basis	Realized Gain or (Loss)
RIVIAN AUTOMOTIVE INC CLASS RIVN	A: 17.0000	11/16/21	11/17/21	\$2,485.73	\$2,954.35	(\$468.62)
Security Subtotal				\$2,485.73	\$2,954.35	(\$468.62)
Total Short-Term				\$2,485.73	\$2,954.35	(\$468.62)
Total Realized Gain or (Loss)				\$2,485.73	\$2,954.35	(\$468.62)

Schwab has provided realized gain/loss information wherever possible for most investments. Cost basis data may be incomplete or unavailable for some of your holdings. See Terms and Conditions. This information is for your reference only and intended as a profile of your investments. It is not intended for tax reporting purposes. Option Customers: Gain/loss on investments sold is adjusted to reflect the premiums of assigned or exercised options.

Understanding Your Year-End Schwab Gain/Loss Report

This page provides an explanation of the terms used in the Year-End Schwab Gain/Loss Report in the order in which they appear.

Accounting Method: The accounting method noted on the report is the one in effect on the last day of the rep calendar year. If you change your accounting method in the middle of a report period, you actually may have a mixed accounting method; however, the accounting method in effect at year-end will be the only method displayed. FIFO accounting (see definition below) is the default method for the purpose of this report.

Single Category Average Cost: The average cost of all shares held in a mutual fund regardless of how long they are owned. This includes shares acquired with reinvested dividends. This method is available for mutual funds and is the method used for open-end funds in this report.

First In First Out (FIFO): The first investments acquired are the first investments sold. This is the "default" method.

Last In First Out (LIFO): The last investments acquired are the first investments sold.

High Cost: Sell lots in order of highest unit cost to lowest unit cost. This will minimize gains and maximize losses.

Low Cost: Sell lots in order of lowest unit cost to highest unit cost. This will maximize gains and minimize losses.

Tax Lot Optimizer: A tax lot consists of one or more shares of a security purchased at the same price on the same day. Lots sold are selected in the following order.

1. **Short-Term Losses:** Lots that reflect a short-term loss are sold, beginning with lots that generate the greatest short-term loss down to the least short-term loss.
2. **Long-Term Losses:** Lots that reflect a long-term loss are sold, beginning with lots that generate the greatest long-term loss down to the least long-term loss.
3. **Short-Term No Gains or Losses:** Short-term lots are sold that reflect no gain or loss.
4. **Long-Term No Gains or Losses:** Long-term lots are sold that reflect no gain or loss.
5. **Long-Term Gains:** Lots that reflect a long-term gain are sold, beginning with lots that generate the least long-term gain up to the greatest long-term gain.
6. **Short-Term Gains:** Lots that reflect a short-term gain, are sold, beginning with lots that generate the least short-term gain up to the greatest short-term gain.

Specific Lot: The IRS allows taxpayers to specifically identify lots sold. Such identification can be made at the time of trade up until settlement date. An "m" on this report indicates that the account holder

has used Specific Lot and matched a sale against a particular lot held at the time of trade.

Closing Transaction: The fulfillment of a contract causing an existing investment to end. A sale could be closing transaction for a long position, and a purchase could be a closing position for a short position.

Short-Term/Long-Term: Gain or (loss) on the sale of a capital asset is labeled long-term if the property has been held for more than one year; it is labeled **short-term** if the property has been held for one year or less. Investors need to provide the appropriate purchase date on some investments for the system generating this report to properly determine the holding period. For instance, absent notification to the contrary, the report assumes the purchase date is the date of transfer for investments transferred from another brokerage account. All transactions are displayed at the lot level. A **lot** is a single unit of shares of an investment that was acquired or opened on a specific trade date and at a specific trade time.

Quantity/Par: The number of shares for each lot within each investment position in the account. This is the number of shares for stocks and mutual funds; it is the number of contracts for options; and it is the face value bonds or notes. Fractional shares are rounded for display purposes on this report.

Acquired/Opened: The trade date, effective date or the date provided by the account holder for a particular lot. This date generally establishes the holding period of the lot. For short positions, the opening date is the date the short position is established. If no date is available, the field will be left blank.

Sold/Closed: The trade date, effective date or the date provided by the account holder. For long positions, the closing date is the date on which the long position is disposed. For short positions, the closing date is the date on which the short position is covered.

Total Proceeds: The amount received upon disposition of the holding less commissions and applicable fees.

Cost Basis: The amount paid for the lot including applicable commissions, fees and adjustments for corporate actions and return of capital payments. For Short Sales, while the position remains open, the proceeds appear in the Cost Basis column with a negative value. In the Realized Gain or (Loss) section, the Cost Basis is the amount paid to close the transaction and appears in the Cost Basis column. The proceeds will appear in the Total Proceeds column. For cash in your account, Cost Basis includes total cash less margin loan(s) outstanding at the time this report is printed. Because it may include transactions which have not yet settled, please refer to your account statement for details

Adjusted Cost Basis: The amortized cost basis (for bonds bought at a premium) or the accreted cost basis (for bonds bought at a discount).

Realized Gain or (Loss): A realized gain or (loss) is shown when a closing transaction occurs in your account that requires recognition of a gain or loss. To determine the Realized Gain or (Loss) for a lot, the Cost Basis is subtracted from the Total Proceeds.

Adjusted Realized Gain or (Loss): The realized gain or (loss) that is calculated based on the Adjusted Cost Basis.

Endnotes: Lettered footnotes are placed next to items that required additional explanation. Footnotes are explained on the last page of the report.

e - Data for this holding has been edited or provided by the account holder

i - Value includes incomplete cost basis. If cost basis is not available for an investment, you may be able to provide updates.

m - A sale was matched against a particular lot held at the time of trade.

S - Short sale.

Disclaimer at bottom of each page of report
Schwab has provided accurate realized gain and loss information wherever possible for most investments. Cost basis data may be incomplete or unavailable for some of your holdings. If all data for a given investment is not available, the investment will not be listed here.

Option Customers: Realized gain/loss of underlying securities is adjusted to reflect the premiums of assigned or exercised options.
