Table with 2 columns: Description and Amount. Row 1: Box 1. Aggregate amount of AdvCTC payments you received for 2021. \$562.50. Row 2: Box 2. Number of qualifying children taken into account in determining the AdvCTC. 1.

Why you received this letter

Under the American Rescue Plan, the IRS made monthly AdvCTC payments of up to half of your 2021 Child Tax Credit from July through December to help support families raising children.

- If you're eligible for the credit, file Schedule 8812 with your 2021 income tax return to claim your remaining credit...
• If you aren't eligible for the credit, file Schedule 8812 to determine if you must pay back some or all the monthly payments you received in 2021...

How the IRS determined your payment amounts

Monthly payment amounts were initially based on information from an income tax return you filed or information you entered in the IRS non-filer sign-up tool in 2020 or 2021. Your monthly payment amount or how or where the IRS paid your payment may have changed based on information you provided the IRS through your 2020 income tax return...

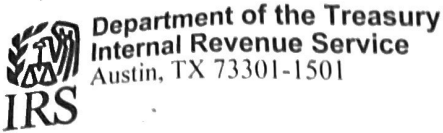

Repayment protection

You may not have to repay in full any AdvCTC payments that took into account more qualifying children (Box 2 above) than you claim on your 2021 income tax return (Schedule 8812). The repayment protection is based on your 2021 modified adjusted gross income (MAGI). You will not have to repay any AdvCTC payments for non-qualifying children if your 2021 MAGI is under:

- \$60,000 if you are married and filing a joint return or if filing as a qualifying widow or widower.
• \$50,000 if you are filing as head of household.
• \$40,000 if you are a single filer or are married and filing a separate return.
