IRS regulations require that Computershare and other brokers/agents provide additional information to you and to the IRS when you sell certain securities. If you sold or transferred shares/units and did not specify a cost basis calculation method we have defaulted to the first in, first out (FIFO) method unless the plan's terms provide for the use of the average cost basis method. All covered and noncovered information set forth in this document is for informational purposes. The information is based on data in our records as of the date of this mailing. Cost basis data may be subject to change based on events such as wash sales, splits and spinoffs. If cost basis data was not available, the information was left blank. Computershare cannot confirm the accuracy or completeness of noncovered transactions. You should review your records for accurate information regarding the subject transactions and consult your tax adviser with any questions concerning your tax reporting obligations.

**Class Description:** Describes the class of security held, e.g., Class A Common Stock.

**Closing Balance:** The number of shares/units held by you as of the date noted.

**Cost Basis:** The original value of an asset for tax purposes (usually the purchase price), adjusted for wash sales, stock splits, spinoffs and return of capital distributions.

Some plans will use the Grant Date FMV when determining the final purchase price. Please review your plan document for your company's FMV definitions and pricing rules.
