- If you choose to use TaxAct®, TurboTax® or H&R Block® tax preparation tools, you can use the import feature for many tax documents in this package.
- You'll need your Package ID and Document ID found on this page to use the tax preparation tools for tax documents in this package.
- Some tax data may not import and may require manual input.

Important reminders and online resources for filing your 2021 tax return

Tax documents are sent at different times depending on the types of accounts you own. Documents for IRAs and other retirement accounts, annuities, insurance policies or education savings plans with reportable activity were sent to you by January 31, 2022.

Each account has only one taxpayer ID, whether owned jointly, by a trust or by a corporation. The IRS requires that we send tax documents to each taxpayer separately. We recommend waiting to file your 2021 tax returns until you have received tax documents for all accounts that had reportable activity in 2021.

Updated tax documents

You may receive updated tax documents for some investments reported in this tax package if we receive income reclassification or other changes from the investment issuers. If you own Unit Investment Trusts (UITs), Real Estate Investments Trusts (REITs), Commodity Trusts, or Real Estate mutual funds, consult a qualified tax professional about delaying filing your tax returns until early April to avoid re-filing. Learn more about income reclassification at ameriprise.com/taxprofessionals.

For amended tax documents, Ameriprise may apply De Minimis Safe Harbor rules under IRS 6721 & 6722 which allow financial institutions not to produce updated tax reporting for changes of \$100 or less (\$25 or less for tax withholding). Taxpayers are allowed to opt out and receive updated tax documents regardless of the amount of the change. For more information, visit the Taxes page on ameriprise.com and click on "Tax filing FAQ". The De Minimis Safe Harbor rule does not apply to initial UIT reallocations provided in March and other original tax documents.

To help you prepare for tax season, we've enclosed your available tax documents for 2021

Tips for navigating tax season this year

- ✓ Visit the [ameriprise.com Taxes](https://ameriprise.com/Taxes) page for document mailing dates and other resources to help you with tax filing.
- ✓ Use the secure site on ameriprise.com to get easy online access to your tax documents when they're ready. If it's your first time logging in, visit ameriprise.com/register.
- ✓ You can sign up for e-delivery¹ of your tax documents from Ameriprise Financial after you have registered for online access to your tax documents. Click on your Profile and choose online delivery for tax documents under the Communication Preferences tab.
- ✓ Generally, you won't receive a 1099-DIV, 1099-INT or a 1099-OID for any account where your reportable dividend, interest or original issue discount is less than \$10 during the year, unless your account was subject to backup withholding².
- ✓ If you own investments that are organized as a trust or partnership³ in accounts that are not part of an IRA or other retirement plan, you will receive the documents you need to file your tax returns (likely a Schedule K-1, and possibly other schedules) directly from the partnership. Unlike other investments you may own at Ameriprise Financial, we do not provide you with tax documents for partnerships if they produce a Schedule K-1 or other schedules.
- ✓ If you own investments such as mutual funds, Real Estate Investment Trusts (REITs) or other investments that revise their tax information, you may receive an amended tax document. Ameriprise applies the De Minimis Safe Harbor rule that allows brokers not to send amended tax documents for changes of \$100 or less (\$25 or less for tax withholding changes) to clients and the IRS⁴. For more information, visit the Reclassification section on the [ameriprise.com Taxes](https://ameriprise.com/Taxes) page.
- ✓ Consult a qualified tax professional for any questions and to determine the best time to file your tax return.

- ✓ Did you move last year or change your name? Submit your legal name change to the Social Security Administration and give employers and financial institutions your current name and address to receive tax documents on time.
- ✓ Tax documents are mailed at different times⁵ for different types of accounts and investments. Your household may receive more than one tax document package, and you will receive separate packages for each taxpayer, depending on the accounts you own. It is important to make sure everyone in your household receives tax documents for accounts that had relevant reportable activity in 2021 before filing your 2021 tax returns.
- ✓ Each Ameriprise Financial account has only one taxpayer and designated taxpayer identification number (TIN), such as a social security number for individuals. Tax documents are only sent to the account taxpayer.
 - Jointly owned accounts: tax documents sent only to the designated taxpayer on the account.
 - Accounts owned by a trust: tax documents sent to the trustee.
 - Accounts owned by a corporation: tax documents sent to the corporation's designated agent.
- ✓ Remember that your household may receive more than one tax package for tax year 2021.
- ✓ If you need to verify the taxpayer on an account, contact your Ameriprise Financial advisor or a client service representative at 800.862.7919.

1 Clients are eligible for e-delivery if they are an individual (not an entity such as an LLC or irrevocable trust), are not a minor, are registered for the secure site on ameriprise.com and have a valid email address on file.

2 Ameriprise Stock Market certificates will produce tax documents for income less than \$10 during the year.

3 Partnership investments can include master limited partnerships, managed futures funds, real estate private placements, hedge fund private placements, private equities and qualified opportunity zone funds.

4 You can make an election to continue receiving tax document corrections regardless of the amount of the change. To obtain the Opt-Out Election Form 113542, contact your advisor or call 800.862.7919 and ask for Brokerage Service.

5 Statement will be mailed by the IRS mailing deadline, unless there are extenuating circumstances that prevent us from meeting the deadline. If we are not able to meet the deadline(s), we will apply for an extension from the IRS.

Neither Ameriprise Financial nor its representatives or affiliates may provide tax or legal advice. Consult your tax adviser or attorney regarding specific issues.

Proceeds from Broker and Barter Exchange Transactions

2021 1099-B* OMB No. 1545-0715

02/07/2022

Sales transactions are organized into sections according to term (long, short or undetermined) and covered status (covered or noncovered). For tax lots whose term is undetermined, use your historical documents to establish the cost basis and/or date of purchase.

Several columns include both an amount and a qualifying notation to its right. Where proceeds are the result of an option exercise or assignment, there is indication of whether the amount is G (Gross) or N (net of option premium). Accrued market discount and Wash sale loss disallowed appear in the same column, identified by the letters D or W, respectively. Where you are not permitted to recognize a loss, an indication of X (change in control or capital structure) or Z (other corporate action) is used. The change in control condition is reported to the IRS for covered lots. Neither the disallowance of loss due to other corporate action nor the amount of gain or loss is reported to the IRS in any instance.

Some tax lots may have notations in the column of additional information because they require special treatment on your tax returns. Sales of securities such as Contingent Payment Debt Instruments (CPDI) are marked as "Ordinary" because gains and certain losses on these instruments generally do not qualify as short- or long-term capital transactions. Similarly, lots noted as "3 - [X] Collectible" are handled distinctly under the tax code. These conditions are reported to the IRS. You may wish to consult with your tax advisor regarding the proper treatment for these scenarios.

Closing of written options is presented in a distinct manner in accordance with IRS regulation. For these transactions the Cost or other basis (column 1e) is always presented as \$0.00 and the Proceeds (column 1d) is the net of the amount received when the option was written and the cost to close the position.

Detail for Dividends and Distributions

2021

02/07/2022

This section of your tax information statement contains the payment level detail of your dividends and distributions, including ordinary dividends, qualified dividends, capital gains distributions, Section 199A dividends, exempt-interest dividends, nondividend distributions (return of capital) and liquidation distributions. Also shown are the fair market values of any taxable stock dividends or noncash liquidation distributions.

Federal, state and foreign tax withheld and investment expenses are presented as negative amounts but do not net against the reportable income totals. All amounts are grouped by security, with the transactions listed in chronological order. Subtotals for each security are provided. For situations in which the tax character of a distribution (or part thereof) is different than at the time it was paid, endnotes are provided for further explanation.

Note that a payment characterized as a "Qualified dividend" is only issuer-qualified, and shareholders also need to meet the holding period for qualified dividends.

This section of your tax information statement contains the payment level detail of taxable interest and associated bond premium. Market discount will be shown here only if you have elected to recognize it currently rather than at the time of sale or maturity. Bond premium and market discount for covered tax lots are reported to the IRS on Form 1099-INT. Bond premium and market discount for noncovered tax lots are displayed as supplemental information, please work with your tax professional to determine how this should be included in your tax return.

To provide a complete picture of activity for each investment, we also include here nonreportable transactions such as accrued interest paid on purchases and payment or receipt of nonqualified interest. Other amounts, such as federal, state and foreign tax withheld and investment expenses are shown as negative amounts but do not net against the reportable income totals.

Some amounts shown as Agency interest may be exempt from state tax. Consult with your tax advisor for information regarding the proper treatment.

Recipient's taxpayer identification number (TIN). For your protection, this form may show only the last four digits of your TIN (social security number (SSN), individual taxpayer identification number (ITIN), adoption taxpayer identification number (ATIN), or employer identification number (EIN)). However, the issuer has reported your complete TIN to the IRS.

Account number. May show an account or other unique number the payer assigned to distinguish your account.

Backup Withholding. Shows backup withholding. Generally, a payer must backup withhold on certain payments if you did not furnish your TIN or you did not furnish the correct TIN to the payer. Line 4. See "Backup Withholding" section.

Line 5. Shows the portion of the amount on line 1a that may be eligible for the 20% qualified business income deduction under section 199A. See the instructions for Form 8995 and Form 8995-A.

1099-INT Instructions for Recipient

The information provided may be different for COVERED and NONCOVERED securities. For a description of COVERED securities, see the Instructions for Form 8949. For a taxable COVERED security acquired at a premium, unless you notified the payer in writing in accordance with Regulations section 1.6045-1(n)(5) that you did not want to amortize the premium under section 171, or for a tax-exempt COVERED security acquired at a premium, your payer generally must report either (1) a net amount of interest that reflects the offset of the amount of interest paid to you by the amount of premium amortization allocable to the payment(s), or (2) a gross amount for both the interest paid to you and the premium amortization allocable to the payment(s). If you did notify your payer that you did not want to amortize the premium on a taxable COVERED security, then your payer will only report the gross amount of interest paid to you. For a NONCOVERED security acquired at a premium, your payer is only required to report the gross amount of interest paid to you. American Enterprise Investment Services Inc. will report interest and premium amortization separately as gross amounts.

Line 1. Shows taxable interest paid to you during the calendar year by the payer. This does not include interest shown on line 3. May also show the total amount of the credits from clean renewable energy bonds, new clean renewable energy bonds, qualified energy conservation bonds, qualified zone academy bonds, qualified school construction bonds, and build America bonds that must be included in your interest income. These amounts were treated as paid to you during 2021 on the credit allowance dates (March 15, June 15, September 15, and December 15). For more information, see Form 8912, Credit to Holders of Tax Credit Bonds. See the instructions above for a taxable COVERED security acquired at a premium.

Line 2. Shows interest or principal forfeited because of early withdrawal of time savings. You may deduct this amount to figure your adjusted gross income on your income tax return. See the instructions for Forms 1040 and 1040-SR to see where to take the deduction.

Line 3. Shows interest on U.S. Savings Bonds, Treasury bills, Treasury bonds, and Treasury notes. This may or may not all be taxable. See Pub. 550, Investment Income and Expenses. This interest is exempt from state and local income taxes. This interest is not included on line 1. See the instructions above for a taxable COVERED security acquired at a premium.

Line 4. See "Backup Withholding" section.

Line 5. Any amount shown is your share of investment expenses of a single-class REMIC. This amount is included on line 1. **Note:** This amount is not deductible.

Line 6. Shows foreign tax paid. You may be able to claim this tax as a deduction or a credit on your Form 1040 or 1040-SR. See your tax return instructions.

Line 7. Shows the country or U.S. possession to which the foreign tax was paid.

Line 8. Shows tax-exempt interest paid to you during the calendar year by the payer. See how to report this amount in the Instructions for Forms 1040 and 1040-SR. This amount may be subject to backup withholding. See line 4 above. See the instructions above for a tax-exempt COVERED security acquired at a premium.

Line 9. Shows tax-exempt interest subject to the alternative minimum tax. This amount is included on line 8. See the Instructions for Form 6251, Alternative Minimum Tax-Individuals. See the instructions above for a tax-exempt COVERED security acquired at a premium.

Line 10. For a taxable or tax-exempt COVERED security, if you made an election under section 1278(b) to include market discount in income as it accrues and you notified your payer of the election in writing in accordance with Regulations section 1.6045-1(n)(5), shows the market discount that accrued on the debt instrument during the year while held by you, unless it was reported on Form 1099-OID. For a taxable or tax-exempt COVERED security acquired on or after January 1, 2015, accrued market discount will be calculated on a constant yield basis unless you notified your payer in

writing in accordance with Regulations section 1.6045-1(n)(5) that you did not want to make a constant yield election for market discount under section 1276(b). Report the accrued market discount on your income tax return as directed in the Instructions for Forms 1040 and 1040-SR. Market discount on a U.S. Treasury obligation is exempt from state and local income taxes. Market discount on a tax-exempt security is includable in taxable income as interest income.

Line 11. For a taxable COVERED security (other than a U.S. Treasury obligation), shows the amount of premium amortization allocable to the interest payment(s) for the year, unless you notified the payer in writing in accordance with Regulations section 1.6045-1(n)(5) that you did not want to amortize bond premium under section 171. If an amount is reported on this line, see the Instructions for Schedule B (Form 1040) to determine the net amount of interest includable in income on Form 1040 or 1040-SR with respect to the security. If an amount is not reported on this line for a taxable COVERED security acquired at a premium and the payer is reporting premium amortization, the payer has reported a net amount of interest on line 1. If the amount on line 11 is greater than the amount of interest paid on the COVERED security, please see Regulations section 1.171-2(a)(4).

Line 12. For a U.S. Treasury obligation that is a COVERED security, shows the amount of premium amortization allocable to the interest payment(s), unless you notified the payer in writing in accordance with Regulations section 1.6045-1(n)(5) that you did not want to amortize bond premium under section 171. If an amount is reported on this line, see the Instructions for Schedule B (Form 1040) to determine the net amount of interest includable in income on Form 1040 or 1040-SR with respect to the U.S. Treasury obligation. If an amount is not reported on this line for a U.S. Treasury obligation that is a COVERED security acquired at a premium and the payer is reporting premium amortization, the payer has reported a net amount of interest on line 3. If the amount on line 12 is greater than the amount of interest paid on the U.S. Treasury obligation, see Regulations section 1.171-2(a)(4).

Line 13. For a tax-exempt COVERED security, shows the amount of premium amortization allocable to the interest payment(s). If an amount is reported on this line, see Pub. 550 to determine the net amount of tax-exempt interest reportable on Form 1040 or 1040-SR. If an amount is not reported on this line for a tax-exempt COVERED security acquired at a premium, the payer has reported a net amount of interest on line 8 or 9, whichever is applicable. If the amount on line 13 is greater than the amount of interest paid on the tax-exempt COVERED security, the excess is a nondeductible loss. See Regulations section 1.171-2(a)(4)(ii).

Line 14. Shows CUSIP number(s) for tax-exempt bond(s) on which tax-exempt interest was paid, or tax credit bond(s) on which taxable interest was paid or tax credit was allowed, to you during the calendar year and reported on line 8. If blank, no CUSIP number was issued for the bond(s).

Lines 15-17. State tax withheld reporting lines.

Noncovered Secondary Market Adjustments. Secondary market adjustments (i.e. bond premium, acquisition premium, and market discount) for noncovered bonds are displayed as supplemental information, which is not reported to the IRS. Work with a tax professional to determine if these adjustments should be reported on your tax return.

1099-B Instructions for Recipient

Brokers and barter exchanges must report proceeds from (and in some cases, basis for) transactions to you and the IRS on Form 1099-B. Reporting is also required when your broker knows or has reason to know that a corporation in which you own stock has had a reportable change in control or capital structure. You may be required to recognize gain from the receipt of cash, stock, or other property that was exchanged for the corporation's stock. If your broker reported this type of transaction to you, the corporation is identified on column 1a.

CUSIP number. Shows the CUSIP (Committee on Uniform Security Identification Procedures) number or other applicable identifying number.

Applicable check box on Form 8949. Indicates where to report this transaction on Form 8949 and Schedule D (Form 1040), and which check box is applicable. See the instructions for your Schedule D (Form 1040) and/or Form 8949.

Column 1a. Shows a brief description of the item or service for which amounts are being reported. For regulated futures contracts and forward contracts, "RFC" or other appropriate description may be shown. For Section 1256 option contracts, "Section 1256 option" or other appropriate description may be shown. For a corporation that had a reportable change in control or capital structure, this column may show the class of stock as C (common), P (preferred), or O (other).

Column 1b (Date acquired). If "NONCOVERED" appears on line 5, the date is provided for your reference only. This column may show "Various" if the securities sold were acquired on a variety of dates. For short sales, the date shown is the date you acquired the security delivered to close the short sale.

Column 1c. Shows the trade date of the sale or exchange. For short sales, the date shown is the date the security was delivered to close the short sale. For aggregate reporting on lines 8 through 11, no entry will be present.

Column 1d. Shows the cash proceeds, reduced by any commissions or transfer taxes related to the sale, for transactions involving stocks, bonds, other debt obligations, commodities, forward contracts, non-Section 1256 option contracts, or securities futures contracts. May show the proceeds from the disposition of your interest(s) in a widely held fixed investment trust. May also show the aggregate amount of cash and the fair market value of any stock or other property received in a reportable change in control or capital structure arising from the corporate transfer of property to a foreign corporation. Losses on forward contracts or non-Section 1256 option contracts are shown with a negative sign. This column does not include proceeds from regulated futures contracts or Section 1256 option contracts. Report this amount on Form 8949 or on Schedule D (Form 1040) (whichever is applicable) as explained in the Instructions for Schedule D (Form 1040).

Column 1e (Cost or other basis). Shows the cost or other basis of securities sold. If the securities were acquired through the exercise of a noncompensatory option granted or acquired, the basis has been adjusted to reflect your option premium. If "NONCOVERED" appears on line 5, this column may be blank, or the amount provided is for your reference only. See the Instructions for Form 8949, Instructions for Schedule D (Form 1040), or Pub. 550, Investment Income and Expenses, for details.

Column 1f. Shows the amount of accrued market discount. For details on market discount, see Schedule D (Form 1040) instructions, the Instructions for Form 8949, and Pub. 550. If line 5 is NONCOVERED, column 1f may be blank.

Column 1g. Shows the amount of nondeductible loss in a wash sale transaction. For details on wash sales, see Schedule D (Form 1040) instructions, the Instructions for Form 8949, and Pub. 550. If line 5 is NONCOVERED, column 1g may be blank.

Line 2. Shows type of gain or loss. If the Additional information column includes an "Ordinary" indicator, your security may be subject to special rules. For example, gain on a contingent payment debt instrument subject to the noncontingent bond method generally is treated as ordinary interest income rather than as capital gain. Please see the Instructions for Form 8949, Pub. 550, or Pub. 1212, Guide to Original Issue Discount (OID) Instruments, for more details on whether there are any special rules or adjustments that might apply to your security. If "NONCOVERED" appears on line 5, the type of gain or loss is provided for your reference only. If "UNDETERMINED TERM TRANSACTIONS" appears on line 5, then consult your investment records to determine whether transaction is long-term or short-term.

Box 3. This box will only be shown and checked if proceeds are from a transaction involving collectibles or from a Qualified Opportunity Fund (QOF). It will be displayed in the Additional information column.

Column 4. See "Backup Withholding" section.

Line 5. If this section is NONCOVERED then date of acquisition, cost or other basis, term (holding period), market discount (coded D) and wash sale information (coded W) may not appear. If this information is provided, it is for your information only and is not provided to the IRS.

Column 6. If the exercise of a non-compensatory option resulted in a sale of a security, indicates whether the amount in column 1d was adjusted for option premium ((N) net), or not adjusted for option premium ((G) gross).

Column 7. If an "X" appears next to an amount in this column, you cannot take a loss on your tax return based on gross proceeds from a reportable change in control or capital structure reported in column 1d. See the Form 8949 and Schedule D (Form 1040) instructions. The broker should advise you of any losses on a separate statement.

Line 12. If this section is COVERED, columns 1b, 1e, 1f, and 1g, and line 2 are reported to the IRS. See the instructions for Schedule D (Form 1040) as you may be able to report your transaction directly on Schedule D (Form 1040).

Column 13. Shows the cash you received, the fair market value of any property you received. See Pub. 525, Taxable and Nontaxable Income, for information on how to report this income.

Columns 14-16. Shows state(s)/local income tax information.

Wash sales.

If you have a loss on the sale of a security, the IRS may disallow part or all of that loss if you purchased a substantially identical security within 30 days before or 30 days after the date of the sale. This is called a "wash sale." For example, if you sell 10 shares at a loss on June 15 and buy 10 shares in the same company on July 5, part or all of that loss can be disallowed. For more information, see IRS Publication 550, Investment Income and Expenses, or consult your tax advisor.

Definition of COVERED and NONCOVERED securities

COVERED securities include most stocks, exchange traded funds (ETFs) and real estate investment trusts (REITs) that you purchased on or after Jan. 1, 2011 and mutual funds (including closed-end funds), and REITs and stocks in dividend reinvestment plans (DRIPs) purchased on or after Jan. 1, 2012 and less complex debt and options

Instructions for Recipient

purchased on or after Jan. 1, 2014. Complex bonds, and options issued as part of an investment unit, etc. are COVERED when acquired on or after Jan. 1, 2016.

NONCOVERED securities include stocks, ETFs and REITs purchased prior to Jan. 1, 2011 and mutual funds (including closed-end funds), and REITs and stocks in DRIPs purchased prior to Jan. 1, 2012, and less complex debt and options purchased prior to Jan. 1, 2014. Complex bonds, and options issued as part of an investment unit, etc. are NONCOVERED when acquired prior to Jan. 1, 2016.

The average cost basis is calculated separately for COVERED and NONCOVERED tax lots within the same mutual fund.

Information that is reported to the IRS for Form 1099-B

All securities report proceeds, date of sale, CUSIP, and description.

COVERED securities also report cost or other basis, term and type of gain or loss (short-term, long-term, collectibles, ordinary), market discount (coded D) and the wash sale disallowed loss (coded W), as applicable.

Gain/loss amounts are not reported to the IRS. Due to the split between COVERED and NONCOVERED status and the term of sale, you may see a single sale reflected in different sections of the form.

Cost basis adjustments for COVERED and NONCOVERED securities

Cost basis for COVERED securities is adjusted for non-dividend distributions (Returns of Capital), wash sales, corporate actions, and gifted and inherited shares (when we have the applicable information). Cost basis for COVERED bonds and other debt instruments will be adjusted, as applicable, for acquisition premium, original issue discount (OID), bond premium, and market discount, in accordance with the client's tax reporting elections or IRS default methods.

For NONCOVERED securities, we may make the adjustments noted above. We may not have made these prior to Jan. 1, 2011 for stocks, Jan. 1 2012 for mutual funds and DRIPs, and Jan. 1, 2014 (or Jan. 1, 2016) for debt instruments. Please see your tax advisor in those situations.

Default cost basis methods and fixed income tax reporting elections for bonds and other debt instruments

American Enterprise Investment Services Inc. (AEIS) generally uses the average cost basis method for open-ended mutual funds and First-In, First-Out (FIFO) for other investments, for purposes of identifying the cost basis of investments sold. AEIS will use the IRS required default tax reporting methods for determining cost basis in COVERED bonds and other debt instruments unless a client instructs us otherwise. For additional information and a list of account types that use other default cost basis methods see Ameriprise.com, tax center, cost basis reporting.
