Hello FIMMA,

This is Anil Kumar Kolusu and my Family, writing in the response of the letter that I received after I submitted the Disaster recovery caused by Storm IDA. I had to leave my rental apartment with my immediate family members (wife Soundarya Kolusu, and child Samrath Narayana Kolusu) on the 08/29/2021 due to savior weather conditions. I drove to nearest state GA, Atlanta and staid for couple of days in hotel and then drove to my relative's house in Ohio to save some expenses. However, I took a rental apartment as early as I could in GA to be secure make my family safe on 09/16/2021. (Travel expenses and new lease expenses)

I'm applying this assistance because due to the damage on the roof, beds, sofa and TV got wet, and I had thrown and buy all household goods (**Two beds, two matrices, TV and Sofa**) and all the food items in the house have spoiled and its almost cost me 5000\$. I'm submitting the receipts for the items I brought. As a single income holder, it's hard to manage all these expenses with two dependents. During these 20 days I had to spent enormous amount of money for travel, food, and shelter. Which I have attached the bank statements, hotel receipts, and rental receipts and agreements along with my income w2 for 2020 and pay stubs for current and past month. The main expenses are housing and moving transportation costs. I'm not able to provide the gas charges provided the bank statements showing purchasing of gas doing that time of travels.

Please find the attached all documents and let me know if I missed anything, I'll provide if needed.

Sincerely,  
ANIL KUMAR KOLUSU.

Date  
10/12/2021.
