**The Importance of Diversifying Your Retirement Savings**

Give careful consideration to the benefits of a well-balanced and diversified investment portfolio to help achieve long-term retirement security. Spreading your assets among different types of investments can help achieve a favorable rate of return and minimize risk of loss. Market or other economic conditions that cause one category of assets, or one particular security, to perform well may cause other asset categories, or other securities, to perform poorly. Investing more than 20 percent of your retirement savings in any one company or industry may not be proper diversification. Diversification is an effective strategy to help you manage investment risk, but it is not a guarantee against loss.

Consider all of your assets when deciding how to invest your retirement savings, including any retirement savings outside your U.S. Bank 401(k) account. No single approach is right for everyone. Individuals have different financial goals and time horizons for meeting their goals and tolerances for risk. Periodically review your investment portfolio, including investment objectives and investment options under the Plan to ensure your retirement savings will meet your retirement goals.

For more information about individual investing and portfolio diversification, visit the Department of Labor's website at [www.dol.gov/agencies/ebsa/laws-and-regulations/laws/pension-protection-act/investing-and-diversification](http://www.dol.gov/agencies/ebsa/laws-and-regulations/laws/pension-protection-act/investing-and-diversification).

## Transfer Restrictions

Individual funds within the Plan may have their own transfer restrictions and purchase blocks. More information is available on Your Total Rewards > Savings and Retirement > 401(k) Savings Plan.

You may transfer funds among any of the other investment funds offered in the Plan at any time. Transfer requests processed before 3 p.m. CT (or market close, if earlier) will be effective on the day the request is made. Transfer requests received after that time will be processed the next business day. Change or cancel your request at any time before market close by logging on to Your Total Rewards or by calling U.S. Bank Employee Services at 800-806-7009. If your completed request is delayed for any reason, it will process as soon as administratively possible.

The plan administrator may temporarily or permanently restrict trading ability if you or your beneficiary violates the excessive trading policy of the Plan. The plan may also limit the ability of identified insiders to sell or purchase company securities as required under securities laws.
