

# YOU'RE GOING TO LOVE IT!

We know you'll be spreading the good word about Blue Raven Solar for years to come. To say thanks, we take **\$500** off the total cost of your solar system up front – no conditions, no obligations, and no commitments.

When your friends get their own system you will get an additional **\$500** for the first friend, **\$1,000** for the second, and **\$1,500** for any additional friends!

Share the benefits of solar at [blueravensolar.com/referral](http://blueravensolar.com/referral)  
See website for terms and conditions.

We rely on customers like you putting in a good word for Blue Raven. If you liked our work, please leave us a review and follow us on your social platforms! Welcome to the Blue Raven Family!

**BLUE RAVEN**  
SOLAR

## Homeowner's Insurance Addendum Third Party Authorization to Release Information

Homeowner Name Vamsi Bande  
Property Address 17226 29th St E, Lake Tapps, WA 98391  
Phone 5106481203 Email vamsiece4@gmail.com

With my signature below, I authorize the following contractor to contact my homeowner's insurance provider and to request and receive a copy of the declarations page of my homeowner's insurance policy and any other relevant information for the purpose of contractor submitting on my behalf for residential solar interconnection through my utility company.

The contractor submitting my interconnection application and performing the installation of my rooftop photovoltaic solar system is:

Contractor Name: BRS Field Ops, LLC  
Address: 1403 N. Research Way  
Orem, UT 84097  
FEIN: 81-4452370  
Phone: 800-377-4480  
Fax: 385-265-5041 (Send ATTENTION to "Support")  
Email: support@blueravensolar.com

Homeowner Signature: *Vamsi Baude* Date: 12 / 15 / 2022

## Homeowner Permission for Inspection Access

Homeowner Name Vamsi Bande  
Property Address 17226 29th St E. Lake Tapps, WA 98391  
Phone 5106481203 Email vamsiece4@gmail.com

With my signature below, I grant the following contractor and any municipal or utility inspecting authority having jurisdiction over my property, and each of its respective employees, agents, independent contractors, and subcontractors, the right to access and be on all of my property as necessary for permit and inspection-related activities concerning the inspection, design and engineering, construction and installation, interconnection, and energization of my photovoltaic solar system at the property address first stated above.

The contractor performing the inspection, design and engineering, construction and installation, interconnection, and energization of my photovoltaic solar system is:

Contractor Name: BRS Field Ops, LLC  
Address: 1403 N. Research Way  
Orem, UT 84097  
FEIN: 81-4452370  
Phone: 800-377-4480  
Fax: 385-265-5041 (Send ATTENTION to "Support")  
Email: support@blueravensolar.com

Homeowner Signature: *Vamsi Bande* Date: 12 / 15 / 2022

**BRS FIELD OPS, LLC**

## SOLAR SYSTEM HOME IMPROVEMENT CONTRACT

Customer Name Vamsi Bande  
Address 17226 29th St E, Lake Tapps, WA 98391  
Phone 5106481203 Email vamsiece4@gmail.com

THIS SOLAR SYSTEM HOME IMPROVEMENT CONTRACT (the "Agreement") is entered into by and between **BRS FIELD OPS, LLC**, a Utah limited liability company *doing business as* Blue Raven Solar ("Company" or "Blue Raven"), and the customer(s) identified above ("you" or the "Customer") (collectively, the "Parties") for the purchase and installation of a solar photovoltaic system together with a solar energy storage device, if any:

**NOW THEREFORE**, for and in consideration of the mutual covenants and agreements contained herein and each act done pursuant hereto, the Parties, intending to be legally bound, agree as follows:

1. **Definitions.** Unless the context otherwise requires, when used herein the following terms shall have the meaning indicated:
  - 1.1. Agreement Documents means all documents, exhibits, attachments, and addenda identified herein and those delivered as a part hereof or incident hereto, including but not limited to the Investment Tax Credit Addendum. The Agreement Documents are incorporated as part of this Agreement by reference. If and to the extent this Agreement and the Agreement Documents conflict, the Agreement Documents control.
  - 1.2. Battery means the energy storage device and components, *if any*, [to be] installed at the Site.
  - 1.3. Battery Size means the total size of the Battery in kilowatts.
  - 1.4. Effective Date means the date this Agreement shall be effective; that is, when all Parties hereto have executed the same and delivered counterparts of such signatures to the other Parties.
  - 1.5. Estimated Price means the estimated total cost of the System as stated in the Proposal.
  - 1.6. Final Design means the proposal of the System Size, PV module layout, inverter(s), and estimated yearly production following Site Survey.
  - 1.7. Property or Site means the physical location of the [to be] installed System.
  - 1.8. Proposal means the non-binding initial estimates of the System.
  - 1.9. PV means solar photovoltaic.
  - 1.10. Site Survey means the on-site inspection of the Property for the installation of the System. The Site Survey is necessary for the preparation of the Final Design.
  - 1.11. Substantial Completion means the state of completion of the Work in a good and workmanlike manner in accordance with this Agreement waiting only on final regulatory inspection and interconnection.
  - 1.12. System means all PV, Battery, *if any*, and other electrical and structural devices and components [to be] installed at the Site for the generation or generation *and* storage of solar energy. References in this Agreement to *System(s)*, *PV or PV module(s)*, *Batter(ies)*, *inverter(s)*, *device(s)*, *component(s)*, *equipment*, or other terms of similar import shall be construed to be of such number, identification, and composition as the context or the Agreement Documents require or permit.
  - 1.13. System Size means the estimated total size of the System array in kilowatts.
  - 1.14. System Cost means the total cost of the System, as set forth in the Agreement Documents, including labor, PV modules, Battery, *if any*, and electrical and structural devices and components. If sales tax is charged on Systems in your area, then such sales taxes are included in the System Cost.
  - 1.15. Work means the marketing, sales, electrical and structural review; System design and engineering; procurement of equipment, materials, and authorizations; permitting and licensing; electrical service panel maintenance and upgrades; structural maintenance and upgrades; trenching; A/C relocation; installation of PV modules and inverters, Batteries, and/or other electrical devices and components; System interconnection; and together with all associated labor, equipment, and fees that are reasonable and necessary for System Completion as may be more fully set forth in the Agreement Documents. The Parties

agree that the Work is necessary and reasonable for the installation, production, maintenance, durability, and full use and enjoyment of the System.

2. **Scope of Work.** Company shall perform the services, advance fees, costs, and expenses, and furnish the goods to the extent necessary for the proper completion of the Work as may be more fully set forth in the Agreement Documents. Company may contract with third parties, and Customer agrees to accept the Work performed by such third parties. If Company contracts with another party for any of the Work, such contract and performance thereunder satisfy Company's obligations under this Agreement. Where indicated below, Company shall perform the Work using the following equipment or its equivalent:

QCells

Enphase IQ8+ Microinverters

3. **Proposal.** Customer acknowledges that the proposal(s) provided by Company to Customer for the purchase and installation of PV or PV plus Battery, *if any*, (each, a "Proposal") does not represent a binding agreement, obligation, warranty, guaranty, or representation. Nevertheless, Company will make a good faith effort to follow the Proposal to the extent possible. Notwithstanding the foregoing, if Customer qualifies for, and fully participates in the Company's SmartStart™ program, Company agrees to make payments to Customer in accordance with the terms and conditions set forth in the corresponding SmartStart™ Proposal provided that Company receives purchase money loan proceeds from the participating lender. The proposed design and installation assumptions of the System are as follows:

SYSTEM COST ASSUMPTIONS	
Estimated Total System Cost*†: \$ <u>19012</u>	* IF SALES TAX IS CHARGED ON THE SYSTEM, THEN SALES TAX IS INCLUDED IN THE TOTAL SYSTEM COST
Blue Raven Referral Promotion: (\$500)	
Optional Down Payment: \$ <u>0</u>	† AFTER APPLYING REFERRAL PROMOTION
Estimated Federal Tax Credit: \$ <u>5703.73</u>	
Estimated State Incentive: \$ <u>0</u>	‡ ASSUMES SUCCESSFUL APPLICATION TO A GOVERNMENT OR UTILITY INCENTIVE PROGRAM, EXECUTION AND DELIVERY OF ALL REQUIRED INSTRUMENTS, AND SYSTEM ENERGIZATION
Estimated Proceeds from Renewable Energy Credits‡: \$ <u>0</u>	

PV ASSUMPTIONS
Estimated Size (kW): <u>3.16</u>
Estimated 1st Year Production (kWh): <u>2777</u>
Annual System Degradation: 0.25%

BATTERY ASSUMPTIONS
Number of Batteries: <u>0</u>
Battery Size (kW): <u>-</u>
Estimated Backup (hours): <u>-</u>

4. **Final Design.** Company will perform a Site Survey of the Property, and Customer grants Company permission to access, photograph, evaluate, and inspect the Property for various qualifying structural and electrical factors. After the Site Survey, Company design team will prepare and deliver the Final Design to Customer. The Parties understand that the Final Design may be different from the Proposal due to factors and conditions discovered or re-assessed at the Site Survey. The Final Design also sets forth the plans for location of PV modules, Batteries, and other details related to your System.
5. **Payment.** If Customer elects to pay for the System in cash, half of the System Cost shall be due upon delivery of the Final Design, with the remaining balance due at Substantial Completion. If Customer will finance the System Cost,

Customer agrees that they will either: 1) obtain financing from Company's preferred lender and make payments to lender in accordance with its terms and conditions; or 2) enter into a Retail Installment Sales Contract and Security Agreement ("RIC Agreement") with Company to obtain financing directly from Company and make payments in accordance with such terms and conditions.

6. **Credit Card Charges.** Where Customer elects to pay the System Cost, or any part thereof, through a credit card or other charge card, 1.25% of the transaction value will be charged to the Customer as a surcharge towards Company's credit card processing fees.
7. **Title and Risk of Loss.** Transfer of title in the System, including all PV, Battery, *if any*, and electrical devices and components, and all risk of loss, damage, or destruction to the System shall occur upon the first instance of the PV module equipment being secured to Customer's roof, or in the case of a Battery, installed in or around the Customer's home.
8. **Security Interest.** Customer acknowledges that the lender, if Customer finances the System Cost, Company, or other tradesman or supplier may take a security interest in the System, or the real property the Work improves, as collateral for Customer's full payment (or repayment) of any amount financed or for Work performed as provided under applicable mechanic's lien statute or in accordance with that separate agreement between Customer and lender or Customer and Company.
9. **Termination.** This Agreement may be terminated under the following terms and conditions:
  - 9.1. 0–3 Days After Signing: Customer may cancel this Agreement, pursuant to the Notice of Cancellation attached herewith, within three days of signing this Agreement with no penalty or obligation.
  - 9.2. 0–3 Days After Delivery of the Final Design: Customer has three days after delivery of the initial Final Design following the Site Survey to cancel this Agreement without any penalty or obligation. Customer may cancel under this scenario by mail or electronic delivering (e-mail) of written notice of cancellation to Company.
  - 9.3. After 3 Days of Delivery of the Final Design but Before Installation: Customer recognizes that by signing this Agreement, Company begins expending efforts and resources to add value to Customer by commissioning and paying for a Site Survey, creating permit-quality designs for the System, and otherwise doing the work required to obtain regulatory approval. Accordingly, if Customer cancels this Agreement without cause outside of the cancellation period allowed by law and more than three days after delivery of the initial Final Design following the Site Survey but before commencement of System installation, Customer shall pay Company a reimbursement fee equal to one thousand two hundred fifteen dollars (\$1,215) as compensation for the work, value, and efforts provided by Company to Customer ("Reimbursement Fee"). Notwithstanding the foregoing, Company reserves all available legal and equitable remedies for any breach by Customer including the termination of this Agreement on or after commencement of System installation.
  - 9.4. Cancellation by Company: Company may terminate this Agreement, in whole or in part, for convenience, with or without cause. If Company cancels the Agreement without cause, Customer is under no further obligations under this Agreement.
  - 9.5. Effect of Termination: In the event of any termination of this Agreement as provided in Sections 9.3 or 9.4 above or Customer breach of this Agreement, Customer shall pay Company for all costs, time, materials, and fees reasonably incurred by Company in the performance of the Work that improves or adds value to the Property, which shall be in addition to the Reimbursement Fee and any other amounts due under the Agreement.
10. **Change Request.** Customer shall pay Company one hundred thirty-seven dollars (\$137) for each change to the System that is requested more than three days after delivery of the initial Final Design following the Site Survey. The requested change (the "Change Order"), if any, constitutes an amendment to this Agreement and performance thereunder is subject to mutual acceptance by the Parties. Customer shall make no changes to the Work required to be performed under this Agreement, nor shall Company be under obligation to perform any extra or modified work without a Change

Order signed by the Parties describing the changes, the additional compensation, and the extended time, if any. Customer acknowledges that additional features, non-standard work, extra work, more PV modules, greater PV production, etc. may result in a higher contract price.

11. **Provision of Goods.** Company may offer to provide certain goods in advance of the final installation of the System, which may include: new thermostat, LED lights, or other various hardware (collectively, the “Goods”). In the event Customer accepts and receives the Goods and later cancels the Agreement, Customer agrees to the following in addition to the terms and conditions stated in the Termination section above:

11.1. In accordance with this Agreement, if cancellation is within the statutory cancellation period or within three days after delivery of the initial Final Design following the Site Survey, Customer agrees to return the Goods to Company in substantially the same condition in which they were received by Customer. Customer shall pay three hundred fifty dollars (\$350) to Company if Customer elects to retain the Goods after previously mentioned cancellation period. All Goods returned or payment for retained Goods shall be made within seven (7) business days of cancellation. If the Goods are not returned and the payment not made, then Company reserves all rights to seek full performance of the Agreement.

12. **Work Schedule.** Company will attempt to keep Customer apprised of estimated timelines associated with installing the System. Customer acknowledges that due to required waiting periods associated with some localities, Customer may not hear from Company for an extended amount of time as there will be no updates to report, and inspectors from the governing jurisdiction may show up without advance warning to Customer, even with Company’s best efforts as Company cannot control how governing jurisdictions treat Customer. Company makes no representations regarding the length of time required to begin or complete the System, as regulatory entities, HOAs, and other governing bodies can cause delays in the amount of time necessary. If a sales representative discussed a timeline with Customer, Customer acknowledges such timeline and the timeline provided below is only an estimate that can vary significantly based on factors outside of Company’s control, and that Customer will not rely on a timeline estimate.

- 1–2 weeks for initial Site Survey;
- 1–2 weeks for design and approval;
- 1–6 weeks (or longer) for permit submission and approval; and
- 1–6 weeks for installation, final inspection, and interconnection (depending on inspection).

13. **Damages Caused by Delay.** To the extent that Customer should commit or omit an act within its control that causes delay to the Work. Customer shall pay Company for its actual costs and expenses, including but not limited to mobilization and labor expenses and loss of business or profit, incurred as a result of such delay.

14. **Previous Work.** Customer hereby warrants that all previous improvements, construction, and installations conducted on the Site, including any HVAC, electrical, and structural work, were properly permitted and inspected (collectively, “Previous Work”). Customer agrees to promptly pay any charges, fines, penalties, or other fees levied by a regulatory entity and make any corrections resulting from the discovery of any unpermitted improvements or alterations during the work conducted by Company or any inspections conducted by a government entity. Customer acknowledges that Company cannot reasonably identify or discover all possible inspection or code concerns, and that it is relying on Customer to have properly had all previous work and improvements performed and the Site otherwise up to applicable code. If previous work conditions are encountered at the site of the performance of the Work that differ materially from those disclosed by Customer or from those conditions immediately apparent from Site Survey, terms concerning price and schedule shall be subject to equitable adjustment, which adjustments shall not require the consent of Customer. Customer acknowledges and agrees that under no circumstance shall Company be liable to Customer, a member of Customer’s household, or an invitee of Customer for any loss, damage, injury, or death arising from any Previous Work.

15. **Unforeseen Conditions.** If concealed or unknown physical conditions are encountered at the site of the performance of the Work that differ materially from those disclosed by Customer or from those conditions immediately apparent from Site Survey, terms concerning price and schedule shall be subject to equitable adjustment, which adjustments shall not require the consent of Customer. If at any time a home construction service requires extra costs above the cost specified

or estimated in the Agreement that were reasonably unforeseen, but necessary, and the total of all extra costs to date exceeds five thousand dollars over the course of the entire home construction contract, Customer has a right to an estimate of those excess costs before Company begins work related to those costs. Company will provide this estimate in written form.

16. **Community Association.** Customer agrees to notify Company if there are any CC&Rs, HOAs, or other local restrictions present on the Site. Company relies on Customer for this information and does not do a title search to determine if there are applicable restrictions. Customer accepts all responsibility for working and complying with Customer's HOA, Architectural Control Committee, or other community association body (collectively, the "HOA"), and agrees to be solely responsible for all costs associated with any of these governing bodies, including fines for non-compliance with their requirements. To the extent necessary, Customer hereby authorizes Company to represent Customer before the HOA in connection with Customer's application for System approval. Customer further authorizes and gives permission to the HOA to send, correspond, or communicate with Company concerning Customer's application for System approval. Customer specifically waives any and all claims against the HOA in association with its release of information to Company as authorized herein.
17. **Tree Shade.** Trees on the Property or adjacent property may cast shade on the System thereby lowering System production. Company will use reasonably commercial efforts to identify and take into account tree shade when designing the System. To the extent Company provides a Final Design with production estimates based on material assumptions of certain undertakings of tree relocation, removal, or trimming, Customer hereby releases Company from any claim, complaint, duty, or obligation in any way related to the loss of System production caused by shade from such trees. Further, Customer expressly acknowledges and agrees that any such tree work, whether undertaken by Customer or at Company's direction, shall not be a reason to suspend or delay the scheduling or commencement of System installation or Customer's payment obligations hereunder.
18. **Intended Use and No Obligation to Remove System.**
  - 18.1. The System and the Work performed hereunder is intended for the sole use of Customer. No other person or entity shall be entitled to rely on the services, plans, recommendations, or specifications provided as part of the Work without the written authorization of Company. The System is intended to be installed, and nothing contained in this Agreement obligates Company to remove and replace any part of the System, even to accommodate roof repair or replacement. Customer bears all responsibility, obligation, liabilities, and fair market costs associated with the removal and replacement of the System, even where it is determined that Customer's roof would need to be replaced at some point in the future prior to the installation of the System. For purposes of this section, fair market cost means the amount charged by the contractor performing the removal or replacement.
  - 18.2. In the event Company installs permanent roof anchors as part of its fall protection measures, Customer consents to such installation and acknowledges that it will (i) not be removed at the conclusion of the Work; and (ii) is intended for the sole use of Company in the performance of the Work. Customer acknowledges and agrees that no other person or entity, including Customer, may use or rely on such permanent roof anchors for fall protection or related purposes. Customer, for himself or herself, and for Customer's successors, agents, and assigns, hereby releases Company from any claim or demand relating to any prohibited use or reliance on such permanent roof anchors, *if applicable*.
19. **System Access.** Customer grants Company and their respective employees, agents, independent contractors, and contractors the right to reasonably access all of the Property as necessary performance of the Work and the operation, maintenance, removal, or repair of the System. Following the completion of the Work, Company shall provide Customer with reasonable notice of its need to access the property whenever commercially reasonable. Customer hereby agrees that Company is not responsible for any damage resulting from reasonable entry necessary for the performance of the Work, including but not limited to: sheetrock, paint, wallpaper, flooring, ceilings, walls, cabinetry, etc.
20. **Matching.** Customer acknowledges and agrees that the performance of the Work may result in mismatches between existing material and new or reconfigured material used to repair, replace, or relocate damaged or unwanted material

because of (i) texture; (ii) color fading, oxidation, and weathering; (iii) wear and tear, marring, scratching, or deterioration; or (iv) obsolescence or discontinuation. Company will make a good faith effort to match new or reconfigured materials with existing materials; however, under no circumstances shall Company be liable for the loss in value to any property due to mismatch between existing and new or reconfigured materials.

21. **Standard of Work.** Company shall perform its work in a manner consistent with the level of care and skill ordinarily exercised by other members of the profession currently working under similar circumstances and shall only engage others who perform work at the same level of care and skill. Except as expressly provided in Exhibit 1 to this Agreement, Company hereby disclaims, and Customer unconditionally and irrevocably waives and releases, any and all actual or potential rights Customer might have against Company regarding any form of warranty, express or implied, of any kind or type, relating to and concerning the installation, maintenance, and repair of the System or in connection with Customer's eligibility or participation in a government or utility energy credit, rebate, or incentive program. SUCH WAIVER AND RELEASE INCLUDES TO THE FULLEST EXTENT PERMITTED BY LAW, A WAIVER AND RELEASE OF EXPRESS WARRANTIES (EXCEPT THOSE REPRESENTATIONS AND WARRANTIES OTHERWISE EXPRESSLY SET FORTH IN EXHIBIT 1), IMPLIED WARRANTIES, WARRANTIES OF FITNESS FOR A PARTICULAR PURPOSE, WARRANTIES OF MERCHANTABILITY, WARRANTIES OF HABITABILITY, STRICT LIABILITY, RIGHTS AND CLAIMS OF EVERY KIND AND TYPE. Customer acknowledges that Company does not provide a warranty as to the amount the System will offset Customer's utility usage or bill. The System will provide an amount of power that will not increase beyond its manufactured capacity; whereas Customer's usage can increase and decrease depending on factors outside of Company's control. Accordingly, the warranties and guaranties expressly stated in Exhibit 1 only relate to what the System produces and not to Customer's offset.
22. **Remedies.** If Customer does not timely pay the Reimbursement Fee, System Cost, or other amounts Customer is responsible for which are necessary to complete the Work, then Company is released from any further obligations to Customer hereunder, including those warranties and guaranties expressly stated in Exhibit 1. Further, Company may take all steps necessary to collect the amount(s) owing, including, but not limited to: initiating collection attempts, hiring an attorney or collection agency, shutting off the System, reporting the amounts owing to a credit reporting agency, and pursuing all lawful remedies to obtain payment.
23. **Waiver of Subrogation.** Except where prohibited, Company and Customer agree that with respect to any injury or property loss which is covered by insurance then being carried by Company or Customer, respectively, the party carrying such insurance and suffering said loss releases the other, and against the partners, members, officers, employees, agents, and representatives of the other, of and from any and all claims with respect to such loss, and they further agree that their respective insurance companies shall have no right of subrogation against the other on account thereof.
24. **Miscellaneous.**
  - 24.1. **Notices.** All notices required or permitted under this Agreement shall be in writing and shall be deemed delivered when delivered in person or on the third day after being deposited in the United States mail, postage paid addressed to Company's address or sent by electronic delivery (e-mail) to the address specified most recently by Customer.
  - 24.2. **Further Assurances.** Each party agrees to execute and deliver such instruments and take such further action as the other party may, from time to time, reasonably request in order to effectuate the purposes and to carry out the terms of this Agreement.
  - 24.3. **Waiver.** The failure of either party to enforce any provision of this Agreement shall not be construed as a waiver of limitation of that party's right to subsequently enforce and compel strict compliance with every provision of this Agreement.
  - 24.4. **Non-Reliance.** NO EMPLOYEE OR REPRESENTATIVE OF COMPANY IS AUTHORIZED TO MAKE ANY PROMISE TO CUSTOMER THAT IS NOT CONTAINED IN THIS AGREEMENT CONCERNING COST SAVINGS, SYSTEM PERFORMANCE, TAX BENEFITS, OR GOVERNMENT OR UTILITY INCENTIVES. CUSTOMER AGREES NOT TO RELY UPON ANY PROMISE OR ESTIMATE THAT IS NOT INCLUDED IN THIS AGREEMENT. Customer acknowledges, confirms, and agrees that in entering this Agreement he

or she has not relied on any statement, representation, promise, warranty, guaranty, estimate, or proposal made by Company, or any of its respective officers, employees, sales representatives, contractors, agents, or suppliers except as set forth herein.

- 24.5. Predominant Language. The English-language version of this Agreement controls and prevails in all aspects in case of inconsistency with the translated version, *if any*. A copy of the English version of this Agreement is available upon written request.
- 24.6. Assignment. Company may sell, assign, transfer, convey, or collateralize, by the operation of law or otherwise, any portion of its obligations herein. Company may delegate or subcontract to any person or entity at its sole discretion. Customer shall not assign or delegate any rights or claims under this Agreement without the prior written consent of Company, and any such assignment or delegation shall be null and void.
- 24.7. Amendment. This Agreement may only be modified or amended if amendment is made in writing and signed by both Parties.
- 24.8. Severability. If any provisions of this Agreement shall be held to be invalid or unenforceable for any reason, the remaining provisions shall continue to be valid and enforceable. If a court finds that any provision of this Agreement is invalid or unenforceable, but that by limiting such provision it would become valid or enforceable, then such provision shall be deemed to be written, construed, and enforced as so limited.
- 24.9. Applicable Law. This Agreement shall be governed and construed in accordance with the laws of the State of Utah without regard to conflicts of laws.
- 24.10. Jurisdiction. BOTH PARTIES AGREE THAT ANY SUIT, ACTION, OR PROCEEDING SEEKING TO ENFORCE ANY PROVISION OF, OR BASED ON ANY MATTER ARISING OUT OF OR IN CONNECTION WITH, THIS AGREEMENT OR THE TRANSACTIONS CONTEMPLATED HEREBY SHALL BE BROUGHT IN THE FEDERAL OR STATE COURTS OF UTAH, SO LONG AS ONE OF SUCH COURTS SHALL HAVE SUBJECT MATTER JURISDICTION OVER SUCH SUIT, ACTION, OR PROCEEDING, AND THAT ANY CAUSE OF ACTION ARISING OUT OF THIS AGREEMENT SHALL BE DEEMED TO HAVE ARISEN FROM A TRANSACTION OF BUSINESS IN THE STATE OF UTAH, AND EACH OF THE PARTIES HEREBY IRREVOCABLY CONSENTS AND SUBMITS, FOR ITSELF AND ITS PROPERTY, TO THE EXCLUSIVE JURISDICTION OF SUCH COURTS IN ANY SUCH SUIT, ACTION, OR PROCEEDINGS.
- 24.11. Waiver of Class Action Lawsuits. YOU AND COMPANY AGREE THAT EACH MAY BRING CLAIMS AGAINST THE OTHER ONLY IN YOUR OR ITS INDIVIDUAL CAPACITY AND NOT AS A PLAINTIFF OR CLASS MEMBER IN ANY PURPORTED CLASS OR REPRESENTATIVE ACTION. UNLESS YOU BOTH AGREE OTHERWISE, NEITHER PARTY MAY CONSOLIDATE MORE THAN ONE PERSON'S CLAIMS AGAINST THE OTHER.
- 24.12. Entire Agreement. This Agreement and all Agreement Documents contain the entire agreement of the Parties and there are no other promises or conditions in any other agreement whether oral or written. This Agreement and each and every term and condition hereof, shall inure to the benefit of, and shall be binding upon, the Parties hereto and their respective permitted successors and assigns.
- 24.13. Counterparts. This Agreement may be executed in any number of counterparts, each of which when executed and delivered shall be deemed to be an original, and all of which when taken together constitute one and the same Agreement.

25. **Licenses**. BRS Field Ops, LLC and its subcontractors, suppliers, and independent contractors may be licensed and regulated by the authority in which your System is located.

26. **Signatures**. Execution of this Agreement may be in the form of an electronic or similar signature, and such signature shall be treated as an original signature for all purposes.

## 27. Assignment of Solar Proceeds.

- 27.1. Assignment of Renewable Energy Credits Proceeds. If applicable, Customer hereby absolutely assigns, transfers, and conveys to Company (or its designee), without recourse to Customer, all Customer's rights, title, interest, and duties in and to all proceeds generated by the sale of solar renewable energy credits and certificates generated by the System ("Solar Proceeds"), including all general environmental benefits and

attributes of the System, whether currently existing or existing in the future, and regardless of how the Solar Proceeds is registered, on what registry it is listed, or to whom the Solar Proceeds is sold. Where Solar Proceeds are sold or traded separately from the electricity generated by the System for household consumption or exported back to the utility in a process ordinarily referred to as “net metering,” the assignment of Solar Proceeds under this Section does not assign net metering credits. Customer hereby covenants that it will transfer any and all proceeds generated by the sale of the Solar Proceeds to Company. Consideration for the Assignment of the Solar Proceeds may be used to offset the purchase price or financing cost of the System. Company hereby accepts and assumes the Assignment and the transfer of proceeds as previously described.

27.2. **No Assignment.** Except as otherwise provided in this Article, the rights, titles, interests, or duties of Customer in and to Solar Proceeds or any proceeds thereof, shall not be assigned, registered, or otherwise transferred by Customer without the prior written consent of Company.

28. **Limitation of Liability.** Except as expressly stated in Exhibit 1, Customer hereby agrees that Company’s total liability for any and all injuries, claims, liabilities, losses, costs, expenses, or damages whatsoever, including without limitation, attorneys’ fees and costs to Customer and any third party arising out of or in any way related to Company’s Work, System installation, or this Agreement, from any cause or causes, including but not limited to, Company’s negligence, errors, omissions, breach of contract or any duty, is limited to the lowest amount required by applicable law. Customer agrees that Company and any contracted parties are not liable to Customer for consequential, incidental, punitive, nominal, exemplary, or special damages. In no event shall Company be liable for any difference between estimated savings or payments and actual savings or payments received, or for Customer’s failure to achieve a specified amount of savings or payments, in connection with Customer’s eligibility or participation in any government or utility energy credit, rebate, or incentive program.

COMPANY PROVIDES NO GUARANTY OR WARRANTY THAT ANY BATTERY INSTALLED PURSUANT TO THIS AGREEMENT WILL BE ABLE TO PROVIDE BACKUP POWER IN WHOLE OR IN PART DURING ANY POWER OUTAGES. BACKUP AVAILABILITY IS SUBJECT TO NUMEROUS FACTORS BEYOND COMPANY’S CONTROL, SUCH AS BATTERY CHARGE CAPACITY. AS SUCH, COMPANY DISCLAIMS LIABILITY FOR ANY DAMAGES RESULTING FROM THE UNAVAILABILITY OF BATTERY POWER DURING A POWER OUTAGE, INCLUDING BUT NOT LIMITED TO DAMAGES RELATED TO THE FAILURE OF THE BATTERY TO POWER LIFE SUPPORT OR OTHER MEDICAL DEVICES DURING A POWER OUTAGE. COMPANY PROVIDES NO GUARANTEE THAT THE SYSTEM INSTALLED PURSUANT TO THIS AGREEMENT CAN BE UPGRADED IN THE FUTURE.

29. **Customer Acknowledgement.** Customer hereby acknowledges and agrees that:

- 29.1. Actual utility rates may go up or down and actual savings, *if any*, may vary. Historical data are not necessarily representative of future results. For further information regarding rates, contact your local utility or the State Commerce Commission or Public Utilities Commission.
- 29.2. The offset amount is not guaranteed; only the estimated System production used for administering the production guaranties expressly stated in Exhibit 1 is guaranteed.
- 29.3. Battery backup of electric appliances and length of backup duration is not guaranteed. If any, Customer’s own Battery backup and length duration is subject to numerous factors beyond Company’s control, such as Battery charge capacity, previous work and unforeseen conditions, Site and Battery location, ambient temperature, household energy consumption, and System production. Some electric appliances may not be compatible with Battery backup.
- 29.4. Actual savings or payments under government or utility incentive programs are based on estimated and/or actual System size and/or production as calculated by the program administrator in its sole and absolute discretion.
- 29.5. The System production and size estimates used in this Agreement and the Agreement Documents to anticipate your estimated incentive program savings or payments are not guaranteed. Actual System production may go up and down, those administering the program may calculate System size and/or production differently from Company, and actual savings or payments under the program, *if any*, may vary.

# BLUE RAVEN SOLAR

- 29.6. Except as may be required, savings or payments under government or utility incentive programs are issued directly to Customer. Company will never issue you any such program savings or payments and will never compensate you for any difference between estimated program savings or payments and actual savings or payments received.
  - 29.7. Except as may be required, Customer is solely responsible for ensuring that all required information, documentation, and paperwork for tax and other government or utility energy credits, rebates, or incentives, is obtained and submitted correctly and on-time.
  - 29.8. [Reserved]
  - 29.9. If you are in a state that allows you to select an electrical supplier, switching suppliers will cancel your net metering and require you to set up new net metering. Depending on the supplier, this can be a lengthy process, and Company is not obligated to assist during such transition. Further, any production guarantees offered in Exhibit 1 are suspended during the time your System is not approved for net metering.
  - 29.10. Tax and other government or utility incentives vary as to eligibility, participation, and refundability and are subject to change or termination by executive, legislative, or regulatory action, which may impact savings and payments estimates.
  - 29.11. Approval of your application to any government or utility incentive programs is not guaranteed.
  - 29.12. You agree to review all tax credits with a tax professional to determine what is actually available to you, and you will not rely on any information from sources other than a tax professional.
  - 29.13. You will still receive a monthly utility bill.

**NOTICE OF CANCELLATION**

Transaction Date: 12 / 15 / 2022

**YOU MAY CANCEL THIS TRANSACTION, WITHOUT ANY PENALTY OR OBLIGATION, WITHIN THREE (3) BUSINESS DAYS FROM THE ABOVE DATE. IF YOU CANCEL, ANY PROPERTY TRADED IN, ANY PAYMENTS MADE BY YOU UNDER THE CONTRACT OR SALE, AND ANY NEGOTIABLE INSTRUMENT EXECUTED BY YOU WILL BE RETURNED WITHIN 10 BUSINESS DAYS FOLLOWING RECEIPT BY THE SELLER OF YOUR CANCELLATION NOTICE, AND ANY SECURITY INTEREST ARISING OUT OF THE TRANSACTION WILL BE CANCELLED.**

**IF YOU CANCEL, YOU MUST MAKE AVAILABLE TO THE SELLER AT YOUR RESIDENCE, IN SUBSTANTIALLY AS GOOD CONDITION AS WHEN RECEIVED, ANY GOODS DELIVERED TO YOU UNDER THIS CONTRACT OR SALE; OR YOU MAY IF YOU WISH, COMPLY WITH THE INSTRUCTIONS OF THE SELLER REGARDING THE RETURN SHIPMENT OF THE GOODS AT THE SELLER’S EXPENSE AND RISK.**

**IF YOU DO MAKE THE GOODS AVAILABLE TO THE SELLER AND THE SELLER DOES NOT PICK THEM UP WITHIN 20 DAYS OF THE DATE OF YOUR NOTICE OF CANCELLATION, YOU MAY RETAIN OR DISPOSE OF THE GOODS WITHOUT ANY FURTHER OBLIGATION. IF YOU FAIL TO MAKE THE GOODS AVAILABLE TO THE SELLER, OR IF YOU AGREE TO RETURN THE GOODS TO THE SELLER AND FAIL TO DO SO, THEN YOU REMAIN LIABLE FOR PERFORMANCE OF ALL OBLIGATIONS UNDER THE CONTRACT.**

**TO CANCEL THIS TRANSACTION, MAIL OR DELIVER A SIGNED AND DATED COPY OF THIS CANCELLATION NOTICE OR ANY OTHER WRITTEN NOTICE, OR SEND A TELEGRAM, TO:**

Battery Size (kW): <u>-</u>
Estimated Backup (hours): <u>-</u>

**ADDITIONAL DISCLOSURES:**

- If this box is selected, Customer agrees to the assignment of renewable energy credits proceeds according to the terms and conditions of the Agreement.
- If this box is selected, the pricing terms above will not change if the System is not selected for a government or utility incentive program.

Company will not perform regular maintenance and repairs on the System.

**COMPANY WARRANTS AS FOLLOWS:**

**1. Limited Warranty.**

(a) Workmanship. Company, for a period of ten (10) years from installation, warrants that the System will be designed, engineered, and constructed to meet the requirements of this Agreement and is capable of operating free of major defects and in accordance with all System manufacturer specifications. Company further warrants that the System, and each device and component of the System incorporated therein, will be new or equivalent to new, will be of suitable grade of their respective kinds for their intended use as specified herein, and shall conform in all respects to all applicable requirements of applicable laws, all governmental approvals, the plans and specifications prepared in accordance with this Agreement and all descriptions set forth herein, applicable engineering and construction codes and standards, and all other requirements of this Agreement.

(b) Roof. Company, for a period of ten (10) years from installation, warrants that, with respect to all roof penetrations made by Company, such roof penetrations, limited to three (3) inch radius of the roof penetration, shall be free

from material defects in workmanship and shall be sealed or flashed to eliminate any liquid or vapor penetration, and that such roof penetrations shall not affect or otherwise diminish the strength, integrity, water-proofing, or balance of any underlying roof structure.

(c) Equipment. Company warrants that the PV and Battery, *if any*, devices and components (the "Equipment") installed under this Agreement will be made from new or equivalent to new parts with industry standard warranties. The Equipment will carry the manufacturer's warranty as specified in the Proposal. Company shall assign all Equipment warranties to Customer. Subject to and on condition that notice of defect was given to Company within two (2) years from installation and manufacturer actually repairs and/or replaces the Equipment, Company shall furnish all reasonable labor and materials necessary to accomplish the required repair and/or replacement of the defective item. To the extent that manufacturer repairs and/or replaces the Equipment after two (2) years from installation, Customer acknowledges and agrees to furnish and bear the cost of all labor and materials necessary to accomplish the required repair and/or replacement of the defective item, unless otherwise provided by manufacturer warranty. Company makes no warranty, express or implied, concerning the Equipment except as provided herein.

## 2. **PV Guaranty.**

(a) For purposes hereof, the term "Guaranty Period" shall mean a period of two (2) years from the final completion of Customer's System.

(b) If, for any consecutive three (3) month period during the Guaranty Period, the actual System output, as measured in kWh by the System's monitoring system ("Actual System Output"), is more than fifty percent (50%) below the projected total in kWh of the "Estimated System Output" for the same three (3) month period, as set forth in the Final Design related to the System, Company shall be obligated to cure any shortfall such that Actual System Output is within ten percent (10%) of Estimated System Output going forward. If your residence is not able to support additional panels for any reason, Company shall pay you the present value of the difference in what the utility cost should have been to you versus what it was to you due to the shortfall less ten percent as projected over a two (2) year period. Company is not obligated to compensate for any additional usage beyond the amounts set forth in the Final Design.

(c) If, for any continuous eighteen (18) month period during the Guaranty Period, the Actual System Output is more than fifteen percent (15%) below the projected total in kWh of the Estimated System Output for the same eighteen (18) month period, as set forth in the Final Design, Company shall be obligated to cure any shortfall such that Actual System Output is within ten percent (10%) of Estimated System Output going forward. If your residence is not able to support additional panels for any reason, Company shall pay you the difference in what the utility cost should have been versus what it was to you due to the shortfall, less ten percent, over the Guaranty Period. Company is not obligated to compensate for any additional usage beyond the amounts set forth in the Final Design.

(d) *Notwithstanding the foregoing*, Company shall have no obligation with respect to the Guaranty provided herein to the extent Customer does not have adequate cellular or internet coverage as required by the approved monitoring platform or Company is otherwise unable to monitor Actual System Output. Further, Company shall have no obligation with respect to the foregoing Guaranty for any loss of System production relating to tree shade where the relocation, removal, or trimming of such trees was a material assumption of the Estimated System Output. **For the avoidance of doubt, Company is not responsible for keeping the System free of dirt, snow, debris, and/or critter infestation.**

## 3. **Warranty and Guaranty Administration.**

(a) Unless otherwise provided, Company's warranty and guaranty obligation stated herein are limited to those defects or deficiencies which become apparent within the applicable warranty or Guaranty Period set forth above.

(b) If Company's warranty or guaranty obligations stated herein are breached, or a defect or deficiency covered by Company is discovered during the applicable warranty or Guaranty Period set forth above, upon notice to Company, Company shall promptly repair, replace, correct the deficiency, and/or agree to an equitable price adjustment.

(c) All reasonable labor and material costs necessary to Company's performance of its warranty and guaranty obligations shall be borne by Company.

## 4. **Warranty and Guaranty Exclusions.** The warranty and guaranty obligations stated herein do not extend to:

(a) Eligibility or participation in a government or utility energy credit, rebate, or incentive program.

(b) Damage, malfunction, or degradation of electrical output or System performance caused by or resulting from:

- i. Customer's failure to properly operate or maintain the System, and system components, in accordance with manufacturer's published instructions available online;
- ii. Any repair, replacement, modification, enhancement, or reinstallation of the System or any part thereof using a part or service not provided or authorized;
- iii. An accident, alteration, negligence, vandalism, or other misconduct by Customer, subsequent owner or any third party, including, but not limited to, damage from golf balls, objects from others, or other impacts caused by persons; earthquake, fire, flood, or other acts of God; excessive heat or excessive cold where Battery is located; or snow covering or a snow load damaging the System; and
- iv. A power or voltage surge caused by someone other than Company including, without limitation a grid supply voltage outside of standard range specified by your local utility or the System specifications or as a result of a local power outage or curtailment.

(c) Except when installed by Company under agreement, electricity storage equipment such as batteries, battery cables, charge controllers, and battery management electronics, and any damage, malfunction, or reduced production in any way caused by or associated with the failure or non-performance, for any reason, of such electricity storage equipment.

(d) Any roof performance issues:

- i. not related to roof penetration made as part of the installation of the System; or
- ii. otherwise covered by Customer's homeowner's insurance.

(e) Loss of System production from tree shade where the relocation, removal, or trimming of such trees was a material assumption of the Estimated System Output.

(f) Use of a Battery installed pursuant to this Agreement as the primary or backup source for medical equipment.

(g) Any pre-existing conditions existing any time prior to installation. Company is not obligated to warranty or guaranty any pre-existing conditions of Customer and is fully released from all liability associated with such pre-existing conditions, including, but not limited to, poor roof conditions.

(h) Company's warranty and guaranty obligations cease if the System is removed and replaced for roof work or other purposes, or if the System is serviced by unauthorized service providers. The warranty and guaranty obligations also do not transfer to new properties purchased by Customer, even if Customer takes the System to the new property.

(i) Any Company and/or manufacturer warranty and guaranty obligations concerning Batteries installed pursuant to this Agreement shall cease if such Battery is charged from any source other than your PV modules.

(j) COMPANY PROVIDES NO GUARANTY OR WARRANTY THAT ANY BATTERY INSTALLED PURSUANT TO THIS AGREEMENT WILL BE ABLE TO PROVIDE BACKUP POWER IN WHOLE OR IN PART DURING ANY POWER OUTAGES. COMPANY PROVIDES NO GUARANTEE THAT ANY BATTERY INSTALLED PURSUANT TO THIS AGREEMENT CAN BE UPGRADED IN THE FUTURE.

5. **Transfer of Warranties/Guarantees.** Company will accept and honor any valid and properly submitted claim under this Limited Warranty and Guaranty made during the applicable warranty or guarantee period by any person to whom Customer properly transfers ownership to the System by way of conveyance of the underlying real property.

## What is the Renewable Energy Investment Tax Credit Program?

The federal residential renewable energy tax credit (RRETC) program, authorized under 26 USC § 25D, encourages the residential use of renewable energy by providing a federal tax credit to owners of solar energy generators that meet certain performance and quality standards.

The RRETC tax credit is a non-refundable, dollar-for-dollar reduction in the federal income taxes you may owe. Think of it like an IRS coupon that reduces the amount you pay the federal government. For example, claiming a \$1,000 RRETC federal tax credit would reduce your federal income tax liability by \$1,000. This is a non-refundable tax credit, which means you will not get a tax refund for the amount of the tax credit that exceeds your tax liability. It is important to understand that you can carry over any unused portion of the RRETC tax credit to the next tax year for up to four years. You must have sufficient tax liability in order to take advantage of the full federal RRETC. The only way you would get a refund from the government is if the amount of taxes withheld from you exceeded the amount that you owed, less the RRETC credit amount. In other words, this incentive is a credit towards taxes that are paid or owed to the government. While most customers who qualify for BLUEPOWER® have a large enough tax liability to take full advantage of the RRETC tax credit, you should consult your tax advisor for advice on your specific situation.
