Subject Amortization schedule

Dear Dinakar Chandolu:

Thank you for contacting BMW Financial Services regarding your account. We are happy to be of assistance.

Enclosed is a copy of the amortization schedule for your account. It reflects each payment you have made to your account, and the application to interest as well as the principal balance. Your retail installment contract (financing agreement) functions as a simple interest account, which is detailed for you in Section One on the back of your financing agreement. The per diem (daily rate) of interest that accrues is calculated as a daily rate, and is based on your remaining principal balance and annual percentage rate on your financing agreement. Therefore, as your principal balance decreases, the per diem of interest that accrues also decreases. Based on the description of the way your financing agreement functions, when we receive a payment for your account, it is first credited to the accrued daily interest since your last payment was made, and then to the remaining principal balance.

We are committed to providing you with the highest level of service. If you have any questions, please contact a Customer Service Advocate at (800) 578-5000, Monday through Thursday, 9:00 a.m. to 9:00 p.m. ET, and Friday 9:00 a.m. to 6:00 p.m. ET, or by mail at the address listed on this letter.

Best regards,
