Proceeds from Broker and Barter Exchange Transactions

Sales transactions are grouped by their term (long, short or undetermined) and covered status (covered or noncovered). For tax lots whose term is undetermined, use your historical documents to establish the cost basis and date of purchase. Tax lots with an additional notation of "Ordinary" represent neither short- nor long-term capital transactions. You may wish to consult with your tax advisor, the IRS or your state tax authority regarding the proper treatment.

Closing of written options is presented in a distinct manner in accordance with IRS regulation. For these transactions the Cost or other basis (column 1e) is always presented as \$0.00 and the Proceeds (column 1d) is the net of proceeds received when the option was written and the cost to close the position.

Several column headings describe two related items: a quantity and a qualifier. For example, proceeds and, if the sale is the result of an option exercise or assignment, whether the proceeds are gross or net (adjusted for any option premium). When these conditions exist, the qualifier is shown to the right of the amount.

Long positions are reported based on the trade date and short positions are reported based on the settlement date of the trade.
