Periodic & Partial Payment Policy

If you send us your payment with additional funds and don't specify how you want that money applied, we will first post payment(s) to bring your loan current. Any remaining money will then be applied based on a payment hierarchy towards outstanding escrow shortages and fees before any funds are posted as a principal reduction. Funds may be applied based on the perceived customer intent. For example, if the received amount is equal to the periodic payment due plus an exact match to outstanding late charges due on the loan, PennyMac may apply the excess funds to late charge due amounts rather than applying excess funds to an escrow shortage. If the money you sent wasn't enough for a payment, it will be applied to your loan as unapplied funds. We may accept a payment that is less than your periodic payment by an amount up to \$10.00. We will use a corporate advance, which will be billed to your account, to make the full periodic payment. Depending on the requirements of your loan documents, owner/insurer/guarantor of your loan or applicable law, and depending on the status of your account, partial payments that are outside the tolerances described above may be promptly returned to you, applied to your account, or held in a non-interest bearing account until additional funds sufficient to equal a periodic payment are received.
