Form: 0(00)		Form Copy:

Description: *****3728(/efile:Return/efile:ReturnHeader/efile:Filer/efile:PrimarySSN)			

Error Detail:

'PrimarySSN' and 'PrimaryNameControlTxt' in the Return Header must match the e-File database.

Error Resolution:

1. Verify the primary taxpayer's Social Security Number (SSN) and last name matches what appears on his or her Social Security Card.
2. Verify there are no misspellings or transpositions in the last name and SSN and that the middle initial and suffix have been entered in the appropriate field(s).

After reviewing and making any necessary changes, refile the return.

The IRS obtains Social Security Number and Name information from the Social Security Administration (SSA). If the taxpayer's information was recently updated (for example a name change), the IRS may not yet have received the updated information from the SSA. If necessary, call the SSA at 1-800-772-1213 to verify that their records are correct. If SSA records are updated, it can take up to four weeks to transfer the updated information to the IRS. Wait four weeks, and then re-file the return.

If the reject continues, or if you do not want to wait four weeks to re-file electronically, you may print and file this return by mail.
