Re: 2023 Form W-2  
Thulasinath R Mundlapudi XXX-XX-0386

Dear Sir or Madam:

The Illinois wages as shown on the W-2 for the above-referenced taxpayer are overstated. Under the subheading, "When Is Compensation Paid in Illinois", of Illinois Department of Revenue Publication 130, bullet number three (3), states that when some services are performed in Illinois and the place from which service is directed or controlled is in Illinois, then compensation is paid in Illinois. While the taxpayer continues to have services directed from Illinois, the taxpayer is a telecommuter for the company. No services were performed in Illinois during 2023.

Correct Illinois wages (Box 16): \$ 0.00

Thank you for your attention to this matter.

Sincerely,

*Brian Bigelow*
