

IBO Annual Income Summary for Calendar Year 2023
Report totals paid by Amway Corp. are stated in U.S. Dollars

These totals reflect all earnings paid directly by, and all purchases made directly from, the company for your business in the calendar year. For your tax reporting, be sure to properly account for any additional earnings paid from sources other than the company. If you are a U.S. IBO that is unincorporated and earned \$600 or more, or purchased \$5,000 or more in merchandise or were subject to backup withholding, your totals will be reported by the company to the IRS on Form 1099-MISC, and copies will be mailed for you to include when filing your income tax returns. However, all IBOs in all jurisdictions must still properly report any earnings from your business on your income tax returns, regardless whether you receive Form 1099 or other similar report.
