Your 2023 overpayment in the amount of \$4,361.58 is paid in full. This repayment reduced your 2023 taxable wages. National Grid will refund any overpaid Social Security and Medicare tax upon receipt of the affidavit below as well as a Form W-2c to reflect this change.

If this affidavit is not signed and returned by 5/5/2024 your 2023 Form W-2c will be created without the refund.

Please sign and return to:

Fax: (315) 477-7623

The overpaid wages paid in the prior year remain taxable to you for that year because you received and had use of those funds during that calendar year. You are not entitled to file an amended income tax return for that year. Instead, you are entitled to a deduction (or credit, depending upon the amount repaid) for the wages repaid on your personal income tax return in the year of repayment.

This overpayment paid in full affidavit letter will serve as proof of the amount repaid and the year repaid. This statement can be used for your current year income tax return to claim a credit or a deduction. Please consult IRS Publication 525 (Repayments) with respect to reporting the repayment of wages for a prior year.
