Hi Vinod,

All Blue Raven Solar customers with a taxable income qualify for the U.S. Federal Solar Investment Tax Credit. Thanks to the new Inflation Reduction Act of 2022, the tax credit is now up to 30% of the cost of your system! All you need is to follow the instructions attached to this email to fill out IRS form 5695 using information found in your Home Improvement Contract (HIC). A

step-by-step guide can be found on page 3 of the instructions found at this link: [IRS Solar Tax Credit Instructions](#)

Additional documentation and resources regarding your system are available upon request.

For more information and for help filling out or filing these documents, please consult a tax professional.

Thanks again for choosing Blue Raven Solar!
