Form 1099-INT (OMB No. 1545-0112)

The information provided may be different for covered and noncovered securities. For a description of covered securities, see the Instructions for Form 8949. For a taxable covered security acquired at a premium, unless you notified the payer in writing in accordance with Regulations section 1.6045-1(n)(5) that you did not want to amortize the premium under section 171, or for a tax-exempt covered security acquired at a premium, your payer generally must report either (1) a net amount of interest that reflects the offset of the amount of interest paid to you by the amount of premium amortization allocable to the payment(s), or (2) a gross amount of interest paid to you and the premium amortization allocable to the payment(s). If you did notify your payer that you did not want to amortize the premium on a taxable covered security, then your payer will only report the gross amount of interest paid to you. For a noncovered security acquired at a premium, your payer is only required to report the gross amount of interest paid to you.

Box 1. Shows taxable interest paid to you during the calendar year by the payer. This does not include interest shown in box 3. May also show the total amount of the credit allowable under section 163(j) for certain new clean renewable energy bonds, qualified energy conservation bonds, qualified zone academy bonds, qualified school construction bonds, and build America bonds that must be included in your interest income. These amounts were treated as paid to you during 2025 on the credit allowance dates (March 15, June 15, September 15, and December 15). For more information, see Form 8912. See the instructions above for a taxable covered security acquired at a premium.

Box 2. Shows interest or principal forfeited because of early withdrawal of time savings. You may deduct this amount to figure your adjusted gross income on your income tax return. See the Instructions for Forms 1040 and 1040-SR to see where to take the deduction.

included in box 1. See the instructions above for a taxable covered security acquired at a premium.

Box 8. Shows tax-exempt interest paid to you during the calendar year by the payer. See how to report this amount in the Instructions for Forms 1040 and 1040-SR. This amount may be subject to backup withholding. See Box 4 above. See the instructions above for a tax-exempt covered security acquired at a premium.

Box 9. Shows tax-exempt interest subject to the alternative minimum tax. This amount is included in box 8. See the Instructions for Form 6251. See the instructions above for a tax-exempt covered security acquired at a premium.

For a taxable or tax-exempt covered security, if you made an election under section 1278(b) to include market discount in income as it accrues and you notified your payer of the election in writing in accordance with Regulations section 1.6045-1(n)(5), shows the market discount that accrued on the debt instrument during the year while held by you, unless it was reported on Form 1099-OID. For a taxable or tax-exempt covered security acquired on or after January 1, 2015, according to the election in writing in accordance with Regulations section 1.6045-1(n)(5) that you did not want to make a constant yield election for market discount under section 1278(b), report the accrued market discount on your income tax return as directed in the Instructions for Forms 1040 and 1040-SR. Market discount on a tax-exempt security is includable in taxable income as interest income.

Box 11. For a taxable covered security (other than a U.S. Treasury obligation), shows the amount of premium amortization allocable to the interest payment(s), unless you notified the payer in writing in accordance with Regulations section 1.6045-1(n)(5) that you did not want to amortize bond premium under section 171. If an amount is reported in this box, see the Instructions for Schedule B (Form 1040) to determine the net amount of interest includable in income on Form 1040 or 1040-SR with respect to the U.S. Treasury obligation. If an amount is reported in this box for a taxable covered security acquired at a premium and the payer is reporting premium amortization, the payer has reported a net amount of interest in box 1. If the amount in box 11 is greater than the amount of interest paid on the covered security, see Regulations section 1.171-2(a)(4).

Boxes 12-14. State income tax withholding reporting.

Box 12. For a U.S. Treasury obligation that is a covered security, shows the amount of premium amortization allocable to the interest payment(s), unless you notified the payer in writing in accordance with Regulations section 1.6045-1(n)(5) that you did not want to amortize bond premium under section 171. If an amount is reported in this box for a U.S. Treasury obligation that is a covered security acquired at a premium and the payer is reporting premium amortization, the payer has reported a net amount of interest in box 3. Box 13. For a tax-exempt covered security, shows the amount of premium amortization allocable to the interest payment(s). A spouse is not required to file this box. See Pub. 550 to determine the net amount of tax-exempt interest reportable on Form 1040 or 1040-SR. If an amount is not reported in this box for a tax-exempt covered security acquired at a premium, the payer has reported a net amount of interest in box 8 or 9, whichever is applicable. Nominees. If this form includes amounts belonging to another person(s), you are considered a nominee recipient. You must file Form 1099-INT for each of the other owners showing the income allocable to each. File Copy A of the form with the IRS. Furnish Copy B to each owner. List yourself as the "payer" and the other owner(s) as the "recipient." File Form(s) 1099-INT with Form 1096 with the Internal Revenue Service Center for your area. On Form 1096 list yourself as the "filer." A spouse is not required to file a nominee return to show amounts owned by the other spouse. .

Form 1099-OID (OMB 1545-017)

Original issue discount (OID) is the excess of an obligation's stated redemption price at maturity over its issue price (acquisition price for a stripped bond or coupon). OID on a taxable obligation is taxable as interest over the life of the obligation. If you are the holder of a taxable OID obligation, you generally must report the amount of interest received, net of any premium amortization for the obligation. Obligations that may have OID include a bond, debenture, note, certificate, or other evidence of indebtedness having a term of more than 1 year. For example, the OID rules may apply to certificates of deposit (CDs), time deposits, bonus savings bonds, and zero-coupon arrangements that defer the payment of interest to maturity. In addition, the OID rules apply to Treasury inflation-protected securities. See Pub. 550 for more information. If, as the record holder, you receive Form 1099-OID showing amounts belonging to another person, you are considered a nominee recipient. Complete a Form 1096 list yourself as the "filer." A spouse is not required to file a nominee return to show amounts owned by the other spouse. If you bought or sold an obligation during the year and you are not a nominee, you are not required to issue or file Form 1099-OID showing the OID or stated interest allocated to the obligation. For a description of covered and noncovered securities, see the Instructions for Form 8949. For a covered security acquired with acquisition premium, your payer generally must report either (1) a net amount of interest that reflects the offset of the amount of acquisition premium amortization for the year, or (2) a gross amount of interest and the acquisition premium amortization for the year. For a non covered security acquired with acquisition premium, your payer is only required to report the gross amount of OID.

Box 1. Shows the OID on a taxable obligation for the part of the year you owned it. Report the amount of interest income on your income tax return. However, depending on the type of debt instrument, the issue or acquisition

date, and other factors (for example, if you paid acquisition premium, or if the obligation is a stripped bond or coupon), you may have to figure the correct amount of interest income. See Pub. 1212, Guide to Original Issue Discount (OID) Instruments, for details on how to figure the correct OID. See the instructions above for a covered security acquired with acquisition premium.

Box 2. Shows qualified stated interest on this obligation for the year, which is an amount separate from the OID. If you held the obligation the entire year, report this amount as interest income on your tax return. If you disposed of the obligation or acquired it from another holder during the year, see Pub. 550 for details on how to report the amount of interest income on Form 1040 or 1040-SR. Interest on a U.S. Treasury obligation and is exempt from state and local income taxes. If there is an amount in both boxes 2 and 11, the amount in box 2 is tax-exempt interest and is not included in interest income on your tax return. In general, see how to report tax-exempt interest in the Instructions for Form 1040 and 1040-SR.

Box 3. Shows interest or principal forfeited if you withdrew the money before the maturity date of the obligation, such as from a CD. You may deduct this amount to figure your adjusted gross income on your income tax return. See the Instructions for Forms 1040 and 1040-SR to see where to take the deduction.

Box 4. Shows backup withholding. Generally, a payer must backup withhold if you did not furnish your Taxpayer Identification Number (TIN) or you did not furnish the correct TIN to the payer. See Form W-9, Request for Taxpayer Identification Number and Certification, for information on backup withholding. Include this amount on your income tax return as tax withheld.

Box 5. For a covered security acquired with OID, if you made an election under section 1278(b) to include market discount in income as it accrues and you notified your payer of the election in writing in accordance with Regulations section 1.6045-1(n)(5), shows the market discount that accrued on the debt instrument during the year while held by you. For a tax-exempt obligation that is a covered security acquired on or after January 1, 2017, and issued with OID, show the market discount that accrued on the obligation during the year while held by you. For a covered security acquired on or after January 1, 2015, market discount will be calculated on a constant yield basis unless you notified your payer in writing in accordance with Regulations section 1.6045-1(n)(5) that you did not want to make a constant yield election for market discount under section 1278(b). If an amount is reported in this box, see the Instructions for Schedule B (Form 1040) to determine the net amount of interest includable in income on Form 1040 or 1040-SR with respect to the U.S. Treasury obligation that is a covered security acquired before January 1, 2017. Report the accrued market discount on your income tax return as directed in the Instructions for Form 1040 or 1040-SR. Market discount on a tax-exempt security is includable in taxable income as interest income.

Box 6. For a taxable covered security, shows the amount of acquisition premium amortization for the year that reduces the amount of OID that is included as interest on your income tax return. If an amount is reported in this box, see the Instructions for Schedule B (Form 1040 or 1040-SR), if an amount is not reported in this box for a covered security acquired with acquisition premium, the payer has reported a net amount of OID that reflects the offset of OID that is included in income. If the payer has reported a net amount of OID in box 1 or box 8, you must report the net amount of OID on Schedule B (Form 1040 or 1040-SR) to determine the net amount of interest includable in income on acquisition premium on Schedule B (Form 1040 or 1040-SR). If there is an amount in both boxes 6 and 11, for a tax-exempt obligation that is a covered security acquired on or after January 1, 2017, and is issued with OID, the amount in box 11 shows the amount of acquisition premium amortization for the year that reduces the amount of your tax-exempt OID for the year. The payer may, but is not required to, report the acquisition premium for a tax-exempt obligation that is a covered security acquired before January 1, 2017, and issued with OID. See the instructions above for a covered security acquired with acquisition premium.

Box 7. Shows the identification (CUSIP) number or description of the obligation (may include the stock exchange, issuer, coupon rate, and year of maturity).

Box 8. Shows OID on U.S. Treasury obligation for the part of the year you owned it. Report this amount as interest income on your federal income tax return, and see Pub. 1212 to figure any appropriate adjustments to this amount. This OID is exempt from state and local income taxes and is not included in box 2. See the instructions above for a covered security acquired with acquisition premium. This amount is reported as gross amount for the year of adjustment. See Pub. 550 for further information on accounting for this adjustment.

Box 9. Any amount shown is your share of investment expenses of a single class REMIC. This amount is included in box 1. Note: This amount is not deductible.

Box 10. For a taxable covered security, including a Treasury inflation-protected security, shows the amount of premium amortization allocable to the interest payment(s), unless you notified the payer in writing in accordance with Regulations section 1.6045-1(n)(5) that you did not want to amortize bond premium under section 171. If an amount is reported in this box, see the Instructions for Schedule B (Form 1040 or 1040-SR). If an amount is not reported in this box for a taxable covered security acquired at a premium and the payer is reporting premium amortization, the payer has reported a net amount of interest paid on the covered security, see Regulations section 1.171-2(a)(4). If there is an amount in both boxes 10 and 11, for a tax-exempt obligation that is a covered security acquired on or after January 1, 2017, and issued with OID, the amount in box 11 shows the amount of acquisition premium amortization for the year that reduces the amount of your tax-exempt interest for the year. The payer may, but is not required to, report the premium amortization for a tax-exempt obligation that is a covered security acquired before January 1, 2017, and issued with OID. See the instructions above for a covered security acquired with acquisition premium.

Box 11. For a tax-exempt obligation that is a covered security acquired on or after January 1, 2017, shows the tax-exempt OID on the obligation for the part of the year you owned it. The payer may, but is not required to, report the OID for a tax-exempt obligation that is a covered security acquired before January 1, 2017. In general, report the amount of tax-exempt OID on Form 1040 or 1040-SR. See the instructions above for a covered security acquired with acquisition premium.

Form 1099-TR (OMB 1545-0175)

Form 1099-TR (OMB 1545-0175) shows the proceeds from (and in some cases, basis for) transactions to you and the IRS on Form 1099-B. Reporting is also required when your broker knows or has reason to know that a corporation in which your own stock has had a reportable change in control or capital structure. Complete a Form 1096 list yourself as the "filer." A spouse is not required to file a nominee return to show amounts owned by the other spouse. If you bought or sold an obligation during the year and you are not a nominee, you are not required to issue or file Form 1099-TR showing the amount allocated to the obligation. For a description of covered and noncovered securities, see the Instructions for Form 8949. For a covered security acquired with acquisition premium, your payer generally must report either (1) a net amount of interest that reflects the offset of the amount of acquisition premium amortization for the year, or (2) a gross amount of interest and the acquisition premium amortization for the year. For a non covered security acquired with acquisition premium, your payer is only required to report the gross amount of OID.

Box 1a. Shows a brief description of the item or service for which amounts are reported for interest on Treasury obligations and forward contracts. For all other appropriate descriptions may be shown. For Section 1256 option contracts, "Section 1256 option" or other appropriate description may be shown. For a corporation that had a reportable change in control or capital structure, this box may show the class of stock as C (common), P (preferred), or O (other).

Box 2. Shows the amount of interest or dividends. For securities sold were acquired on a variety of dates. For short sales, the date shown is the date you acquired the security delivered to close the short sale.

Box 1c. Shows the trade date of the sale or exchange. For short sales, the date shown is the date the security was delivered to close the short sale. For aggregate reporting in boxes 8 through 11, no entry will be present.

Box 1d. Shows the cash proceeds, reduced by any commissions or transfer taxes related to the sale or exchange. Transactions involving stocks, debt commodities, forward contracts, non-Section 1256 option contracts, or securities futures contracts. May also show the aggregate amount of cash and the fair market value of any stock or other property received in a reportable change in control or capital structure arising from the corporate transfer of property to a foreign corporation. Losses on forward contracts or non-Section 1256 option contracts are shown in parentheses. This box does not include proceeds from regulated futures contracts or Section 1256 option contracts. Report this amount on Form 8949 on Schedule D (Form 1040) (whichever is applicable) as explained in the Instructions for Schedule D (Form 1040).

Box 1e. Shows the cost or other basis of securities sold. If the securities were acquired through the exercise of a non compensatory option granted or acquired on or after January 1, 2014, the basis has been adjusted to reflect your option premium. If the securities were acquired through the exercise of a non compensatory option granted or acquired before January 1, 2014, your broker is permitted, but not required, to adjust the basis to reflect your option premium. If the securities were acquired through the exercise of a compensatory option, the basis has not been adjusted to include any amount related to the option that was reported to you on a Form W-2. If box 5 is checked, box 1e may be blank. See the Instructions for Form 8949, the Instructions for Schedule D (Form 1040), or Pub. 550 for details.

Box 1f. Shows the amount of nondeductible loss in a wash sale transaction. Report this amount on Form 8949 on Schedule D (Form 1040) instructions, the Instructions for Form 8949, and Pub. 550. If box 5 is checked, box 1f may be blank.

Box 2. The short-term and long-term boxes pertain to short-term gain or loss and long-term gain or loss. If the Ordinary box is checked, your security may be subject to capital gains tax. For example, gain on a contingent payment debt instrument subject to the noncontingent bond method generally is treated as ordinary interest income rather than as capital gain. Please see the Instructions for Form 8949, Pub. 550, or Pub. 1212 for more details on whether there are any special rules or adjustments that might apply to your security. If box 5 is checked, box 2 may be blank.

Box 3. If checked, proceeds are from a transaction involving collectibles or from a Qualified Opportunity Fund (QOF). Generally, a payer must backup withhold if you did not furnish your taxpayer identification number to the payer. See Form W-9 for information on backup withholding. Include this amount on your income tax return as tax withheld.

Box 5. If checked, the securities sold were noncovered securities and boxes 1b, 1e, 1f, 1g, and 2 may be blank. Generally, a noncovered security means: stock purchased before 2011, stock in most mutual funds purchased before 2012, stock purchased in or transferred to a dividend reinvestment plan before 2012, debt acquired before 2014, options granted or acquired before 2014, and securities futures contracts entered into before 2011.

Box 6. If the exercise of a non-compensatory option resulted in the sale of a security, a checked "Net proceeds" box indicates whether the amount in box 1d was adjusted for premium.

Box 7. If checked, you cannot take a loss on your tax return based on gross proceeds from a reportable change in control or capital structure reported in box 1d. See the Form 8949 and Schedule D instructions. The broker should advise you of any losses on a separate statement.

Box 12. If checked, the basis in box 1e has been reported to the IRS and either the short-term or the long-term gain or loss box in box 2 will be checked. If box 12 is checked on Form(s) 1099-B and NO adjustment is required, see the instructions for your Schedule D (Form 1040 or 1040-SR) as you may be able to report your transaction directly on Schedule D (Form 1040 or 1040-SR). If the Ordinary box or box 5 is checked, an adjustment may be required.

WIDELY HELD FIXED INVESTMENT TRUSTS (WHFIT) Section Letter

IRS regulations require an Additional Written Statement for securities classified as Widely Held Fixed Investment Trusts (WHFITs). WHFIT securities include: unit investment trust (UITs), mortgage trusts, royalty trusts and commodity trusts. This Additional Written Statement is for your information only and is not sent to the IRS.

To assist with your tax filing, your WHFIT tax information is reported in two sections of your E*TRADE from Morgan Stanley 1099 Consolidated Tax Statement:

1. Reportable on the IRS Forms 1099-DIV, 1099-INT, 1099-MISC, 1099-OID, and 1099-B.
2. Non-Reportable to the IRS
 - Additional Written Statement* Restates the 1099-DIV, 1099-INT, 1099-MISC and 1099-OID plus information not required to be reported on a 1099.
 - Realized Gain and Loss Summary Reports sales, redemptions and return of principal.

*The Additional Written Statement restates your 1099 information and also includes tax information not required to be reported on a Form 1099, but may be needed in order to properly report your WHFIT income and expenses. The information included on an Additional Written Statement will vary depending upon the type of property in which the WHFIT invests. Your 1099 Consolidated Tax Statement includes one Additional Written Statement for each WHFIT security owned by you during the year.

Please note that WHFITs must report income based on the year in which it was earned by the trust, which could differ from the year in which the income was distributed to you. Additionally, the WHFIT regulations require that the income reported on your 1099s be based on the gross amounts earned by the trust before reduction for expenses and adjustments. For this reason, the amounts reported on your 1099s may exceed your actual distributions. **We recommend that you review this information with your tax advisor.**

Royalty Trust and Commodity Trust Holders: We are also sending you tax information provided by the issuer. This will assist you in computing your adjusted cost basis in the Trust. E*TRADE from Morgan Stanley does not provide adjusted cost basis for this security.
