LARGE TRADER REPORTING

A "large trader" is a legal entity or natural person who, directly or indirectly, through the exercise of investment discretion, effects transactions in the National Market System (NMS) securities that equal or exceed either:

- 2 million shares or \$20 million during any calendar day; OR
- 20 million shares or \$200 million over any calendar month.

The U.S. Securities and Exchange Commission (SEC) Rule 13h-1 Large Trader Reporting System requires U.S. and non-U.S. market participants who meet the definition of large trader to:

- File an electronic Form 13H with the SEC (via EDGAR) to obtain a large trader identification number (LTID); and
- Promptly disclose to U.S. broker-dealers that execute trades or carry accounts for the large trader, their LTIDs and the accounts to which the LTIDs apply.

If you are a large trader and have completed a Form 13H, you will receive an LTID from the SEC. In order to ensure that LTID's are captured and reported as required under the SEC rule, you are required to promptly report your LTID to us and identify each account to which the LTID should be applied.

EXTENDED HOURS TRADING RISK DISCLOSURE

You should consider the following points before engaging in extended hours trading. "Extended hours trading" means trading outside of "regular trading hours." "Regular trading hours" generally means the time between 9:30 a.m. and 4:00 p.m. Eastern Standard Time.

Risk of Lower Liquidity. Liquidity refers to the ability of market participants to buy and sell securities. Generally, the more orders that are available in a market, the greater the liquidity. Liquidity is important because with greater liquidity it is easier for investors to buy or sell securities, and as a result, investors are more likely to pay or receive a competitive price for securities purchased or sold. There may be lower liquidity in extended hours trading as compared to regular market hours. As a result, your order may only be partially executed, or not at all.

Risk of Higher Volatility. Volatility refers to the changes in price that securities undergo when trading. Generally, the higher the volatility of a security, the greater its price swings. There may be greater volatility in extended hours trading than in regular market hours. As a result, your order may only be partially executed, or not at all, or you may receive an inferior price in extended hours trading than you would during regular market hours.

Risk of Changing Prices. The prices of securities traded in extended hours trading may not reflect the prices either at the end of regular market hours, or upon the opening the next morning. As a result, you may receive an inferior price in extended hours trading than you would during regular market hours.

Risk of Unlinked Markets. Depending on the extended hours trading system or the time of day, the prices displayed on a particular extended hours trading system may not reflect the prices in other concurrently operating extended hours trading systems dealing in the same securities. Accordingly, you may receive an inferior price in one extended hours trading system than you would in another extended hours trading system.

Risk of News Announcements. Normally, issuers make news announcements that may affect the price of their securities after regular trading hours. Similarly, important financial information is frequently announced outside of regular trading hours. In extended hours trading, these announcements may occur during trading, and if combined with lower liquidity and higher volatility, may cause an exaggerated and unsustainable effect on the price of a security.

Risk of Wider Spreads. The spread refers to the difference in price between what you can buy a security for and what you can sell it for. Lower liquidity and higher volatility in extended hours trading may result in wider than normal spreads for a particular security.

IMPORTANT INFORMATION REGARDING PURCHASES INDICATED AS AVERAGE PRICE

Your orders are processed in either (1) one execution at the confirmed price or (2) more than one execution, in which case the confirmed price is an average price. Please contact your J.P. Morgan representative for details regarding actual prices.

EDELIVERED TRADE CONFIRMATIONS

As a reminder, if you've elected to receive trade confirmations by electronic delivery, you can find current and past copies online in the Trade Confirmations section under Statements & Documents. You can also find disclosures and important information about those trades, via a link on that page titled "See important disclosures for your confirmations".

CUSTOMER FREE CREDIT BALANCES

For accounts that are held at JPMS, customer free credit balances may be used in this firm's business subject to the limitation of 17CFR Section 240.15c3-3 under the Securities Exchange Act of 1934. You have the right to receive from us in the course of normal business operation, upon demand, the delivery of:

- any free credit balances to which you are entitled
- any fully-paid securities to which you are entitled
- any securities purchased on margin upon full payment of any indebtedness to us

For clients enrolled in a sweep program, the balance in any bank deposit account or shares of any money market mutual fund in which you have a beneficial interest can be withdrawn or liquidated on your order and the proceeds returned to your securities account or remitted to you.

If this is a margin account and we maintain a special memorandum account for you, this is a combined statement of your general account and a special memorandum account maintained for you under Section 220.6 of Regulation T issued by the Board of Governors of the Federal Reserve System. The permanent record of this separate account, as required by Regulation T, is available for your inspection.

Unless we hear from you to the contrary, it is our understanding that any free credit balances in your account are being maintained to facilitate your intention to invest such amounts through us.

MARGIN ACCOUNT REMINDERS

If you own a margin account, we would like to remind you that:

Securities and other assets in your account are our collateral for any margin loan made to you. If the securities and other assets in your account decline in value, so does the value of the collateral supporting your loan, and, as a result, we can take action, such as issue a margin call and/or sell securities or other assets in any of your accounts held at J.P. Morgan Securities LLC to maintain the required equity in your account. It is important that you fully understand the risks involved in trading securities on margin. These risks include the following:

- **You can lose more funds than you deposit in your margin account.**
- **We can force the sale of securities or other assets in your account(s).**
- **We can sell your securities or other assets without contacting you.**
- **You are not entitled to choose which securities or other assets in your account(s) are liquidated or sold to meet a margin call.**
- **We can increase our "house" maintenance margin requirements at any time and are not required to provide you with advance written notice.**
- **You are not entitled to an extension of time on a margin call.**

Further, if you have a margin account with us, as permitted by law we may use certain securities in your account for, among other things, settling short sales and lending the securities for short sales, and as a result may receive compensation in connection therewith. If you carry a margin balance, your account statement will reflect the current annual interest rate applicable to your margin loan. Please review the current rate, as under certain circumstances the rate may change without advance notice. If you have any questions or concerns about your current interest rate, please speak to your J.P. Morgan representative.

If you are a customer with a margin account, you have consented to our right (to the extent permitted by applicable law) to use, lend or pledge any securities held by J.P. Morgan Securities LLC in your margin account. In certain circumstances, such loans or other use may limit, in whole or in part, your ability to receive dividends directly from the issuing company and/or your right to exercise voting and other attendant rights of ownership with respect to the loaned, sold or pledged securities. Such circumstances include, but are not limited to, loans of securities that you own in your margin account that continue over record dates for voting purposes and ex-dividend dates for dividend distributions. If you do not receive dividends directly from the issuing company, you may receive payments-in-lieu of dividends, which could cause you to lose the benefit of the preferential tax treatment accorded to dividends.

For questions, please contact us using the information provided on the front of this statement.

IMPORTANT INFORMATION ABOUT AUTOMATIC REINVESTMENTS

Automatic Reinvestment transactions excluding those conducted by DTC or in open ended mutual funds are processed by J.P. Morgan Securities LLC (JPMS) on an agency basis.

JPMS provides you with the ability to enroll in a program to re-invest any and all dividend, capital gains and return of capital distributions (collectively "Distributions") for securities eligible for participation (the Program). By participating in the Program, all dividends and capital gains distributions paid on eligible accounts or individual securities you have selected will automatically be reinvested into the shares of the same security. The important terms of the Program include:

- **Voluntary Participation.** Participation in the Program is voluntary and you may modify or discontinue your participation at any time. You may enroll by specifying individual securities or have all eligible securities in your account participate in the Program; modify your elections; or unenroll from the Program through the website or by contacting your PCA or FA.
- **Trade Execution.** With the exception of open ended mutual funds, provided you are enrolled in the Program prior to the record date, JPMS reinvests the Distributions from an eligible security on the pay date of the Distribution, at an average weighted price. For certain securities, reinvestment may occur through the Depository Trust Company (DTC), which may be later than the pay date. There may be a difference in price depending on whether the Program trade is made through J.P. Morgan or DTC. These transactions will post to your account when the shares are made available to JPMS by DTC and will be reflected on your statement.
- **No Fees.** No commission or fee are charged for Program trades.
- **Fractional Shares.** JPMS will credit to your account the number of shares equal to the amount of your funds to be reinvested in a particular security divided by the purchase price per share. If made available for your account, participation in the Program may give you interests in fractional shares of securities, which JPMS calculates to five decimal places. You will receive dividend payments proportionate to your partial share holdings.
- **Confirmation of Transactions.** All Program trades will be reflected on monthly account statements. You will not receive separate immediate confirmations for Program trades. You may request the details of any Program trade by contacting JPMS. Transactions that are not part of the Program will continue to receive confirmations contemporaneously with the trade.
- **No Recommendation.** The inclusion of any security in the Program is not a recommendation by JPMS to buy, hold or sell such security. Participation in the Program does not assure profits on your investments and does not protect against loss in declining markets.
- **Eligibility.** Generally, all brokerage accounts are eligible for participation as are most equities, open ended mutual funds, closed end funds and ETFs. Any exclusions will be identified at the time you are enrolled.
- **Program Changes.** Program participants will be notified in advance if there are any material changes to the Program though no notice may be given if there are changes to the eligibility of any particular security.

For questions, please contact us using the information provided on the front of this statement.

These estimates are obtained from multiple sources deemed to be reliable. This information is not guaranteed for accuracy and is furnished for the exclusive use of the client.

J.P. Morgan makes no representation, warranty or guarantee, express or implied, that any quoted value represents the actual terms at which securities could be bought or sold or new transactions could be entered into, or the actual terms on which existing transactions or securities could be liquidated. Such values are only indicative.

ESTIMATED PRICING AND COST BASIS: Certain assets, including but not limited to, pooled and private investments, non-publicly traded and infrequently traded securities, derivatives, partnership interests and tangible assets are generally illiquid, the value of such assets may have been provided to us by third parties who may not be independent of the issuer or manager. With respect to security positions received into your account, cost basis information, if any, has been provided by you. Further information is available upon request.

You may hold positions where the original cost basis has been adjusted to reflect amortization or accretion.

For Regulated Investment Companies or Dividend Reinvestment Plan sales, for which the average price method has been chosen, positions are closed out on a First-In-First-Out (FIFO) basis.

These statements are not official documents for income tax reporting purposes and should not be relied upon for such purposes, including determination of income, cost basis, amortization or accretion, or gain/loss. Such information, which may be inaccurate, incomplete or subject to updating, should be confirmed with your records and your tax advisor.

DIVIDEND INCOME: Dividends credited to your account may include capital gains, non-taxable dividends and/or dividends on foreign stock. You may wish to consult your tax advisor with regard to your tax liability on these dividends.

ESTIMATED ACCRUED INCOME, ESTIMATED ANNUAL INCOME AND ESTIMATED YIELD CALCULATIONS: The following calculation descriptions are provided for your reference. Please note that other factors may affect your specific calculations, so if you would like more information, please contact your J.P. Morgan representative or call us at the number on the front of this statement. In general, **Estimated Accrued Income** is calculated by multiplying the current coupon rate with the current face amount for the number of days since the bond’s last interest payment. **Estimated Annual Income (EAI)** is calculated by multiplying either the current coupon rate or an estimated annual dividend (generally calculated by annualizing the most recent regular cash dividend) by the quantity of the security held. For balances other than sweep program balances, **Estimated Yield (EY)** is calculated by dividing EAI by the market value of the security. You should also know that: (i) the figures shown in this statement are estimates based on mathematical calculations using data obtained from outside sources; they are provided for informational purposes only, and are not a projection or guarantee of future returns. (ii) because prices of securities, coupon and dividend rates are subject to change at any time, these estimates should not be relied upon exclusively for making investment, trading, or tax decisions. (iii) because different asset types (e.g., equities versus fixed income securities) tend to have different investment characteristics, these estimates should not be compared across asset types; (iv) EAI and EY for certain types of securities might include return of principal or capital gains, in which case the EAI and EY would be overstated. There is no guarantee that your investments will actually generate the EAI or EY presented, and your actual income and yield might be higher or lower.

IMPORTANT INFORMATION REGARDING AUCTION RATE SECURITIES (ARS): ARS are debt or preferred securities with an interest or dividend rate reset periodically in an auction. Although there may be daily, weekly and monthly resets, there is no guarantee that there will be liquidity. If there are not enough bids at an auction to redeem the securities available for sale, the result may be a failed auction. In the event of a failed auction, there is no assurance that a secondary market will develop or that the security will trade at par or any other price reflected on statements and online. Accordingly, investors

For questions, please contact us using the information provided on the front of this statement.

STATEMENT SUMMARY	BROKERAGE	IMPORTANT INFORMATION

should not rely on pricing information appearing in their statements or online with respect to ARS. When J.P. Morgan is unable to obtain a price from an internal or outside source for a particular ARS, the price column on your statement will indicate "unpriced". A description of J.P. Morgan's practices and procedures regarding ARS is available at www.jpmorgan.com/muniars.

VALUATIONS OF OVER-THE-COUNTER DERIVATIVE TRANSACTIONS: Valuations of over-the-counter derivative transactions, including certain derivatives-related deposit products, have been prepared on a mid-market basis. These valuations are sourced from the various issuers of the securities, affiliates or they are sourced from a third party valuation provider. J.P. Morgan expressly disclaims any responsibility for (1) the accuracy of the models or estimates used in deriving the valuations, (2) any errors or omissions in computing or disseminating the valuations, and (3) any uses to which the valuations are put. Valuations are provided for information purposes only and are intended solely for your own use. Please refer to the trade confirmation for details of each transaction.

UNPRICED SECURITIES: When we are unable to obtain a current value from an internal or outside source for a particular security, the price column on your statement will indicate "Unpriced." Although such securities may have value, please note that the value of a security indicated as "Unpriced" will not be included in your overall current market value as reflected on the statement.

RESTRICTED SECURITIES: Restricted Securities (typically noted as "Restricted" or "RSTD" in the security description) have not been registered under the Securities Act of 1933 and may not be "freely traded." Since restricted securities are subject to certain restrictions which may render them illiquid or less liquid than freely-tradable shares, there can be no assurance a secondary market exists. While we typically use the value of the registered/unrestricted security of the same issuer and same class for statement (and other) reporting purposes, the price realizable in a sale of the securities may be less than the "Market Value" indicated and could be zero. No attempt has been made to independently value the specific security subject to its restriction. Additionally, inclusion of pricing of these holdings will result in the aggregated value of your portfolio as reflected on this report being overstated by an amount equal to the difference (if any) between the value of the freely-traded underlying security and the actual value of your restricted shares. For additional information on pricing, please see the "Market Prices" paragraph above.
