Illinois Tax Return Frequently Asked Questions

How long will it take to process my Illinois tax return?

The Illinois Tax office will take approximately 8-12 weeks after receiving your return to process your application.

What is the April 18th deadline?

The April 18th tax deadline is the date by which all tax returns must be filed for the previous year. If you owe the Illinois tax office money and you don't file your tax return by April 18th, the Illinois tax authorities will impose late filing penalties and interest on the amount you owe, so the sooner you apply the better. If you need to file an extension to give you more time to file your return, the extension request must also be submitted by the due date. Extension requests only extend your time to file your return, not to pay your taxes. Make sure your estimated tax liability is paid before the deadline to avoid paying any late payment penalties and interest.

What taxes can Sprintax prepare for me?

With Sprintax, you can prepare your Federal, State, FICA tax returns. Once prepared, you must then sign and submit them yourself to the relevant authorities (as detailed in your instruction pack). Sprintax cannot file any returns on your behalf.

Can I use an international tax treaty on my Illinois State tax return?

Yes. Illinois State complies with all tax treaties that the Internal Revenue Service uses.

Could I owe money to the State tax authorities?

Depending on how your employer taxed you and what the actual tax liability under the tax law is, you may owe tax or be due a tax refund. If you have a tax liability or if other particular factors apply, then you have an obligation to file a tax return. Sprintax takes into consideration all of these factors. Remember, if you owe money and don't file your return before the deadline, you'll get penalties and fines added to the amount you owe.
