Dante - Dante Molina - Jan 3, 2023 5:30 PM  
 work that was done on booster pump when it was brought to the shop recently. The customer had unbolted the cracked Bowl from the also cracked motor mount and motor and brought only the motor mount and motor to be repaired. The motor mount was replaced at the shop but the ball was left at the site. Replaced cracked casingl at South shop and brought pump back to be reinstalled. Repaired broken plumbing and Cycle System multiple times. Reset pre-charge in pressure tank to 40 PSI for the 45 65 system. Property owner was present on site and signed service contract for the work to be completed. He mentioned that he would like to be sent an invoice to be payable online with a different card than the one that was provided on the service contract
