Instructions to Recipient - Box 2. Shows refunds, credits, or offsets of state income tax you received. It may be taxable to you if you deducted the state income tax paid on Schedule A (Form 1040) or you received certain credits or incentives that are subject to federal income tax. Even if you did not receive the amount shown, for example, because: (a) it was credited to your state estimated tax or consumer use tax, (b) it was offset against federal or state debts, (c) it was offset against other offsets, or (d) you made a charitable contribution from your refund, it is still taxable if it was deducted. If you received interest on this amount, you may receive Form 1099-INT for the interest. However, the payer may include interest of less than \$600 in the blank box next to box 9 on Form 1099-G. Regardless of whether the interest is reported to you, report it as interest income on your tax return. See your tax return instructions.

Box 3. Identifies the tax year for which the box 2 refunds, credits, or offsets shown were made.
